

How to Join a Student Set

Last Modified on 12/16/2019 2:13 pm EST

Student Sets allow your instructor to view your results and activity data on ZAPS Psychology Labs. Follow the instructions contained on this page in order to join your instructor's Student Set so that you can share your results and activity data.

If ZAPS is integrated within your campus learning management system (Blackboard, Moodle, etc.), you will not need a Student Set ID number; your grades will automatically report to your instructor.

If you have not yet joined a Student Set, you will be asked to join a Student Set each time you launch an activity. To join a Student Set, enter the Student Set ID number given to you by your instructor in the Student Set ID: field and click the OK button. If your instructor has not given you a Student Set ID number yet, click on the I don't have a Student Set ID at this time button to close the window and proceed to the activity.

The screenshot shows the ZAPS Stroop Effect activity interface. At the top, the ZAPS logo and "Stroop Effect" are displayed. The user's email address, "zapsstudent2@wnorton.edu", is shown in the upper right corner with a gear icon. Below the header, a navigation bar contains tabs for "Introduction", "Experience", "Your Data", "Discussion", and "Learning Check". The "Introduction" tab is active. The main content area displays the "INTRODUCTION" section, which includes text about the Stroop effect and a question: "Can you look at the word in the middle of the screen below without thinking about its meaning?". A modal dialog box is overlaid on the content, asking the user to enter a 5-digit Student Set ID. The dialog contains the following text: "If your instructor has given you a 5-digit Student Set ID number, enter it here:", a text input field labeled "Student Set ID:", and a paragraph explaining that results will be saved even if the user hasn't joined a Student Set, but that they need to join to see their grade. At the bottom of the dialog, there is a link for help: "Need help? Contact W. W. Norton Customer Support". Two buttons are at the bottom: "I don't have a Student Set ID at this time" and "OK".

You can also manually add yourself to a Student Set by clicking on the gear icon in the upper right corner and selecting Add Yourself to a Student Set from the menu.

ZAPS The Norton Psychology Labs Second Edition

If your instructor has given you a 5-digit Student Set ID number, enter it here:

Student Set ID:

Your activity results will be saved even if you haven't joined a Student Set. **But unless you're only using the activity for self-study, you need to join a Student Set for your instructor to see your grade.** Once you do join a Student Set, your results will instantly be visible in your instructor's activity report.

Need help? Contact **W. W. Norton Customer Support**

I don't have a Student Set ID at this time

If you are already a member of a Student Set, you will receive the message below:

You are currently enrolled in the following current Student Set(s) for this product:

- 58411: Psychology 101, Section 1 (US_PA: Duquesne University (ID 22860))

To add yourself to another Student Set, enter the 5-digit Student Set ID number here, then click "OK" below:

Student Set ID:

It is usually fine to be in two different Student Sets at the same time. But if you need to be removed from a previously-joined student set, please contact your instructor or W. W. Norton Customer Support.

Need help? Contact **W. W. Norton Customer Support**

You can add yourself to as many Student Sets as you would like. However, you cannot remove yourself from a Student Set; only your instructor can perform that action.

If you enrolled in the wrong Student Set, enroll in the correct one and notify your instructor of the mistake or contact the [W.W. Norton Service Desk](#) for assistance. Your instructor can remove you from the incorrect Student Set if they have access to the incorrect Student Set ID.
