Instructor Content

Instructor Content functionality allows instructors to create, edit, and publish shareable content with students.

Please note: Students must first join the Student Set to view Instructor Content.

Not only can instructors share notes attached to selected ebook text, but they can also share images, videos, and links. A notable component of the instructor content feature is that it includes guidance and checkpoints for instructors, which will ensure they are sharing content with students that is accessible.

Instructor's personal notes and highlights that exists in the Classic Ebook Reader will automatically import into the New Ebook Reader upon first opt-in to the new reader.

Please note: Shared highlights will not be available in the New Ebook Reader since the green highlighter is now available to all users in the new Ebook.

Import in progress ×

Your instructor content is being imported. This may take up to a few minutes. You'll be unable to create new instructor content until importing is complete.

Can I monitor student and class-wide reading activity?

Instructors can monitor activity in three ways:

- Individual student reading activity:** After creating a Student Set and sharing the ID with students, you will have access to each student's reading progress.
- Class-wide averages for reading time per chapter:** In the Select a Student Set dropdown menu on your ebook homepage, select the Student Set for which you want to view reading time. Class-wide reading averages will then populate across from each chapter link. In the Active Students column, you'll see the number of students in your Student Set who have accessed the chapter. In the Avg. Time Spent (MM:SS) column, you'll see the average time spent for students who have accessed the chapter.

How do I add a Co-Instructor, Scoring Teaching Assistant, or Teaching Assistant to my Student Set?

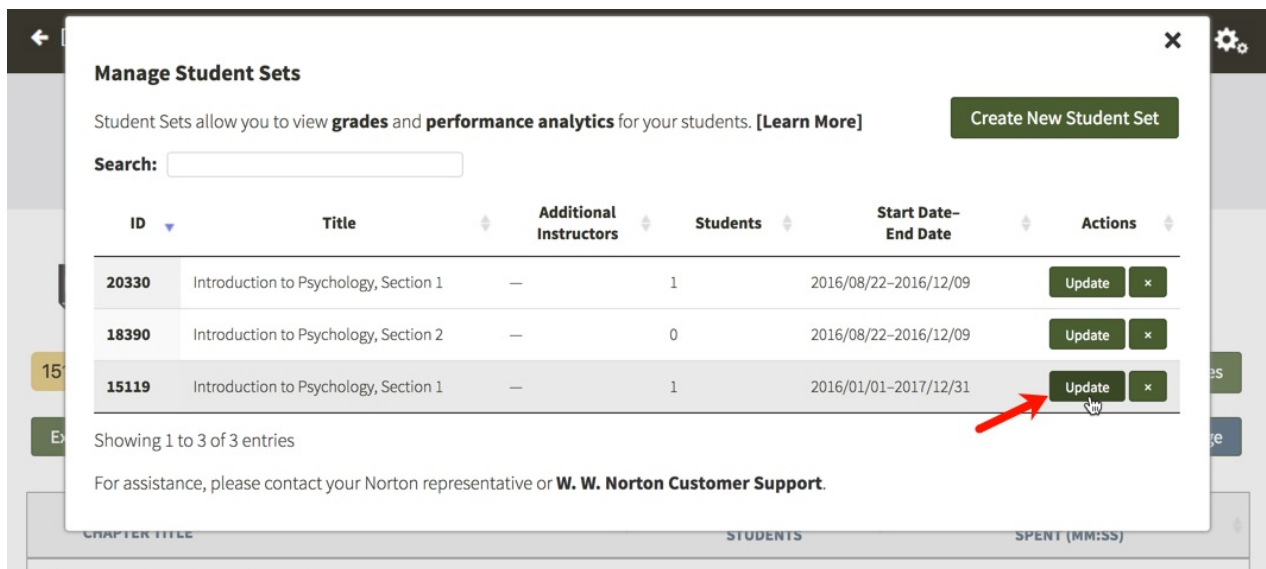

Note: Adding a TA or STA to your Student Set will not grant that account access to the associated product(s); the TA or STA will still need to register or purchase access to be able to use the Digital Resources for your textbook.

Click the gear menu at the upper-right of the page and select Manage Student Sets from the menu.

The screenshot shows the top navigation bar with 'Digital Resources' and 'EBOOK'. The user's username is 'ebookinstructor@wwnorton.edu'. A gear menu is open, showing options: 'Manage Student Sets' (highlighted with a red arrow), 'Show Student View', 'Help', 'Change Your Email', 'Change Your Password', and 'Sign Out'. Below the navigation bar, there is an 'Ebook Interactive Online Textbook' logo and a 'SELECT A STUDENT SET' dropdown menu.

Click the Update button to the right of the Student Set to which you would like to add a co-instructor, scoring TA, or TA.

The screenshot shows the 'Manage Student Sets' modal window. It includes a search bar, a 'Create New Student Set' button, and a table of student sets. The table has columns for ID, Title, Additional Instructors, Students, Start Date-End Date, and Actions. The 'Update' button for the student set with ID 15119 is highlighted with a red arrow.

In the Role dropdown menu, select the permission level you would like to give the person who you are adding to your Student Set. For a comparison of the four different roles, please see the Overview of Role Permissions section below. Type in the person's email address and click the Lookup button.

- If adding a co-instructor, the person you are adding must have a Norton account with full instructor privileges. For help with this, please contact the [W.W. Norton Service Desk](#).
- If you are adding a scoring TA or TA, this person does not need to have a pre-existing Norton account. In the case that they do not have a Norton account, we will send them an email with log in instructions once you add them to your Student Set.
- Note:** If you are adding a student as a scoring TA or TA, you are changing their permissions in all Norton products. If they are enrolled as a student in another Student Set, please have them register with a **separate email address** when logging in as a TA or a scoring TA.
- Once you give an account a specific level of permission in your Student Set, you cannot downgrade that account to a lower permission level. For example, if you give an account scoring TA access, you cannot downgrade that account to TA access.

Click on the Add button to add the co-instructor, scoring TA, or TA to your Student Set.
