Delete a Student Set

Last Modified on 01/06/2016 3:13 pm EST

Deleting a Student Set

To delete an existing Student Set, on the "Manage Student Sets" window, click the "X" button to the right of the Student Set you would like to delete.

As mentioned in the message window that appears, deleting a Student Set will NOT delete any student records or submission data. However, deleting a Student Set cannot be undone so please be careful! Click on the "OK" button to delete the Student Set. Click on the "Cancel" button to close the message window without deleting the Student Set and return to the "Manage Student Sets" window.
