

Searching Questions

Last Modified on 08/07/2020 11:50 am EDT

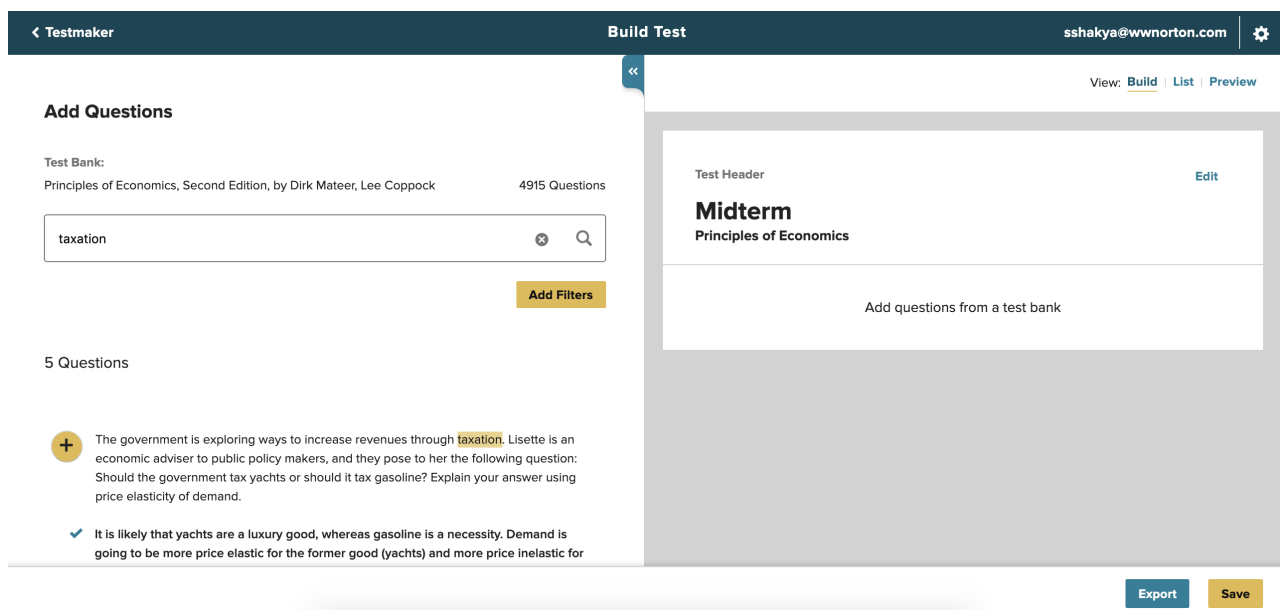

Norton Testmaker lets you search for questions from Norton-provided question banks. Questions will not be displayed in the "Add Questions" panel until a search and/or filters are applied. Follow the steps below to search for questions.

1. Enter a search term in search bar and click the search icon, or hit the enter/return key on your keyboard.

The screenshot shows the 'Build Test' interface. On the left, the 'Add Questions' panel displays the test bank 'Principles of Economics, Second Edition, by Dirk Mateer, Lee Coppock' with 4915 questions. A search bar contains the text 'taxation|' and a search icon. A red arrow points to the search icon. Below the search bar is an 'Add Filters' button. On the right, the 'Test Header' for 'Midterm Principles of Economics' is visible, with an 'Edit' button. Below the header is a placeholder text 'Add questions from a test bank'. At the bottom right, there are 'Export' and 'Save' buttons.

2. Questions matching the search term will populate below the search bar.

The screenshot shows the 'Build Test' interface with search results. The search bar now contains 'taxation' and the search icon is highlighted with a red arrow. Below the search bar is an 'Add Filters' button. Underneath, it says '5 Questions'. A question is displayed with a plus sign icon: 'The government is exploring ways to increase revenues through taxation. Lisette is an economic adviser to public policy makers, and they pose to her the following question: Should the government tax yachts or should it tax gasoline? Explain your answer using price elasticity of demand.' Below this question is a checkmark icon and the text: 'It is likely that yachts are a luxury good, whereas gasoline is a necessity. Demand is going to be more price elastic for the former good (yachts) and more price inelastic for'. On the right, the 'Test Header' for 'Midterm Principles of Economics' is visible, with an 'Edit' button. Below the header is a placeholder text 'Add questions from a test bank'. At the bottom right, there are 'Export' and 'Save' buttons.
