Migration Tool

This tool allows instructors to import all custom questions and assignments from an older edition to a new edition.

Hide All Answers

New Edition

1. When you sign into Smartwork and select a Student Set, you will see a banner message noting that all of your custom questions have been imported to your Question Library for the new edition.

2. To import all of your *custom assignments* from a previous student set into the current student set, select Import Custom Assignments.

*Note: If you want to import your custom assignments later, you can select "Import Custom Assignments" from the gear menu at any time.*

3. A new browser tab will open. From the dropdown menu, select the student set you want and then NEXT.

4. A confirmation page will show that your custom assignments are ready to import from the student set you selected. Select START IMPORT to proceed.

Import My Custom Assignments

Your custom assignments are ready to import from Spring 2020

You'll be able to review and edit your custom content once the import is complete. You can always import custom assignments from other student sets later.

You will receive an email when the import is complete.

← BACK　　　　　　　　　　　　　　　　　　　　　　　　　　START IMPORT

5. Your assignment import will begin. Select CLOSE to return to the main page.

Assignment Import Has Started

Your assignment import has started. You will be notified by email once your import is complete.

You'll be able to access your custom assignments once the import is complete.

CLOSE

6. Once your custom assignments are imported, you will receive an e-mail notification that the import was completed.

Smartwork

Your custom assignments have successfully imported.

Your assignments from Summer 2020, 153330, have successfully imported to Fall 2020, 153416. Some questions may be assigned to different chapters, sections, and/or learning objectives in this book than they were previously.

⚠️ **9 questions** did not map to any chapters or sections in this book. This most likely happened because the content of the book was changed. You will need to assign questions to chapters and sections in order to publish them in assignments.

W. W. NORTON   **Contact our Help Desk**

You will also see a confirmation message on the main page that your custom assignments were successfully imported. Select "X" to dismiss the message.

Custom Question Report

After your custom assignments are migrated, you will be able to download a custom question report.

1. From the banner, select Download Custom Question Report.

Note: You may also download the report by selecting Download Custom Question Report from the gear menu.

2. A .csv file will begin downloading in your browser window.

3. Select the file to view all the custom questions that were migrated from the previous edition to the selected student set.

Custom Assignment Alert

After importing your assignments to the new edition, you will see an alert icon next to the assignment title of your custom assignment from the previous edition.

To dismiss the alert, click the alert icon and click **Remove Alert**.

Previous Edition

After importing your custom questions and assignments into the new edition, you may still access your student sets in the previous edition. If a custom question is created or updated in the previous edition after you've migrated your questions to the new edition, the question will be automatically migrated to the new edition.

Unmapped Questions

If there was a warning message in the import notification e-mail, you will need to assign the questions to chapters and sections in your new student set in order to publish them in assignments.

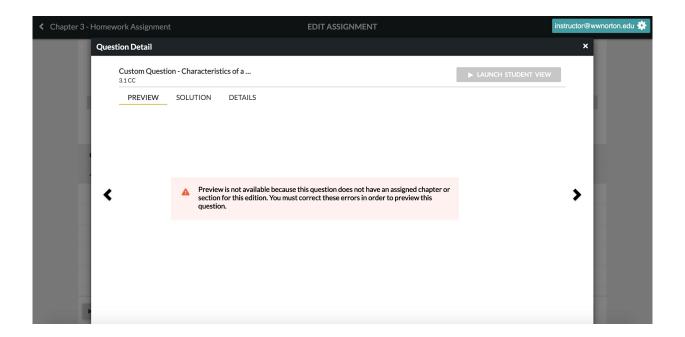

Assignment Editor

1. If there is a warning symbol next to a question title, the question will need to be assigned to a chapter and section.
