Student Sets allow your instructor to view your responses on Tutorial assignments. Follow the instructions contained on this page to join your instructor's Student Set so that you can share your results in order for your instructor to assign a grade.

Click on the gear icon in the upper right corner and select Add Yourself to a Student Set from the menu.

You can add yourself to as many Student Sets as you would like. However, you cannot remove yourself from a Student Set; only your instructor can perform that action.

If you enrolled in the wrong Student Set, enroll in the correct one and notify your instructor of the mistake. Your instructor can then remove you from the incorrect Student Set.

If you joined a Student Set that is not accessible to your instructor, please contact the [W.W. Norton Service Desk](#) to be removed from the incorrect Student Set.

If Tutorials are integrated within your campus learning management system (Blackboard, Moodle, etc.), you will not need a Student Set ID number; your grades will automatically report to your instructor. However, you must always access Tutorials through your learning management system.
