

Instructor-only Functionality

Last Modified on 03/30/2026 8:02 am EDT

The Norton Ebook Reader has functionality that is exclusive to instructors. This page details the Norton Ebook Reader tools that allow instructors to share highlights and annotations with students, and to monitor class-wide reading activity.

Hide All Answers

Instructor Content

Instructor Content functionality allows instructors to create, edit, and publish shareable content with students. Not only can instructors share notes attached to selected ebook text, but they can also share images, videos, and links. A notable component of the instructor content feature is that it includes guidance and checkpoints for instructors, which will ensure they are sharing content with students that is accessible.

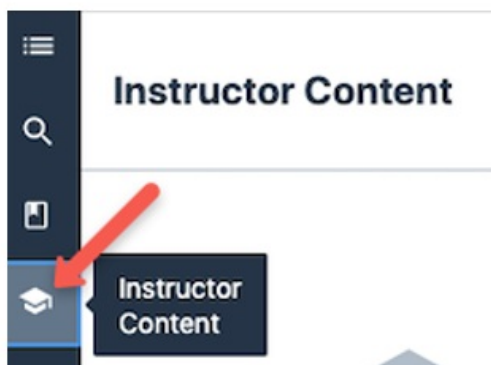

Students must first join the Student Set to view Instructor Content.

Instructor's personal notes and highlights that existed in the Classic Ebook Reader have automatically imported into the New Ebook Reader.

Please note: Shared highlights are not available in the New Ebook Reader since the green highlighter is now available to all users.

How to View Instructor Content

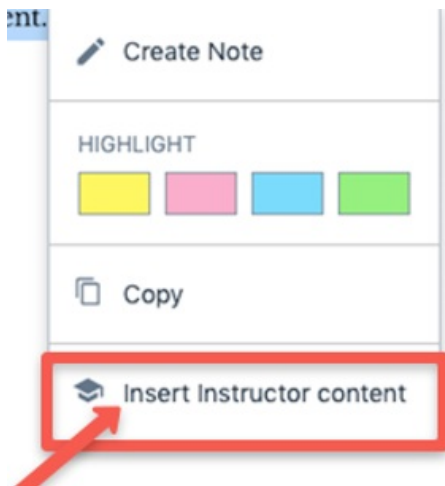

From the Ebook, click the Instructor Content icon (mortarboard hat) from the Context menu on the left side of screen.

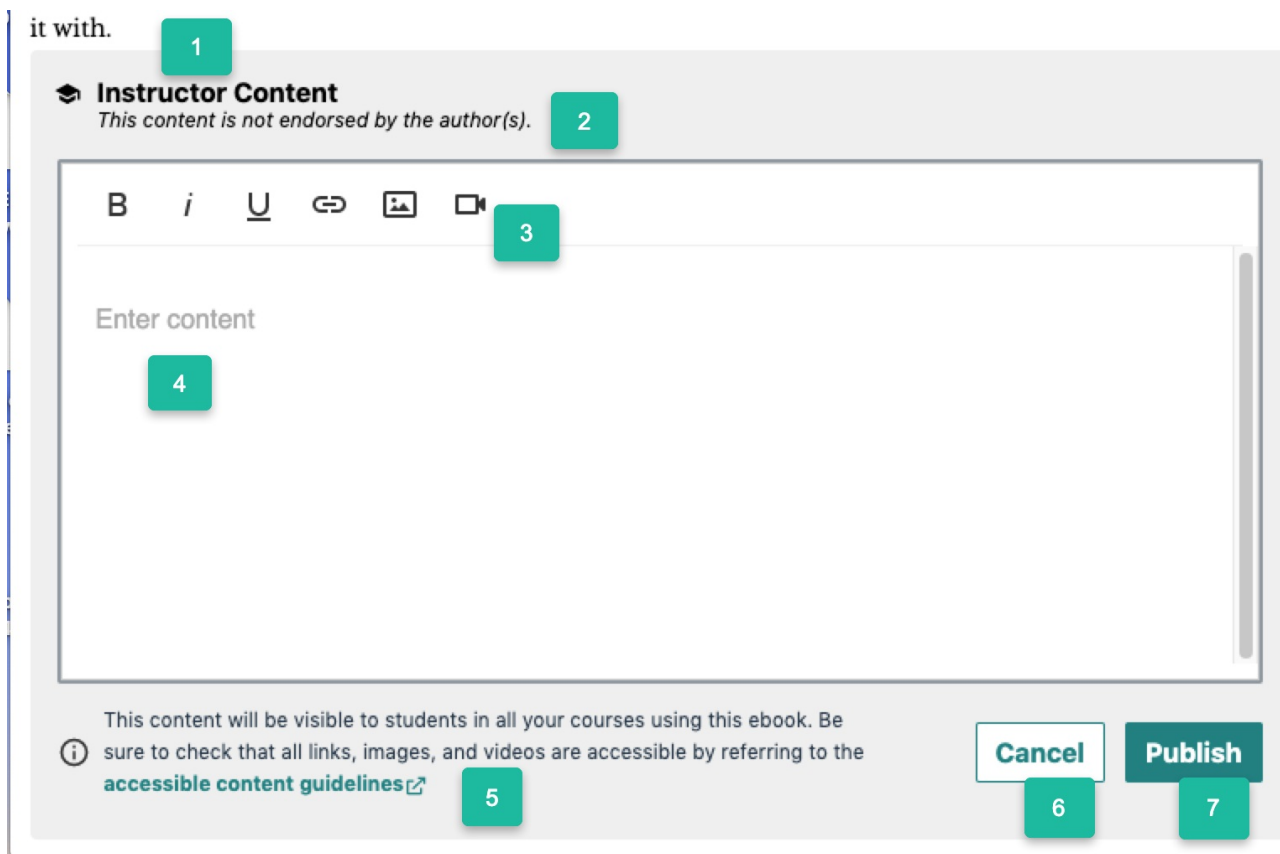

How to Create New Instructor Content

Select content from the ebook

Click Insert Instructor Content.

Instructor Content Feature Box

1. Instructor Content Feature box

2. Descriptive text – *This content is not endorsed by the author(s).*

3. Rich text editing options - Bold, Italic, Underline, and Insert Features: insert link, insert image, insert video

4. Text content box

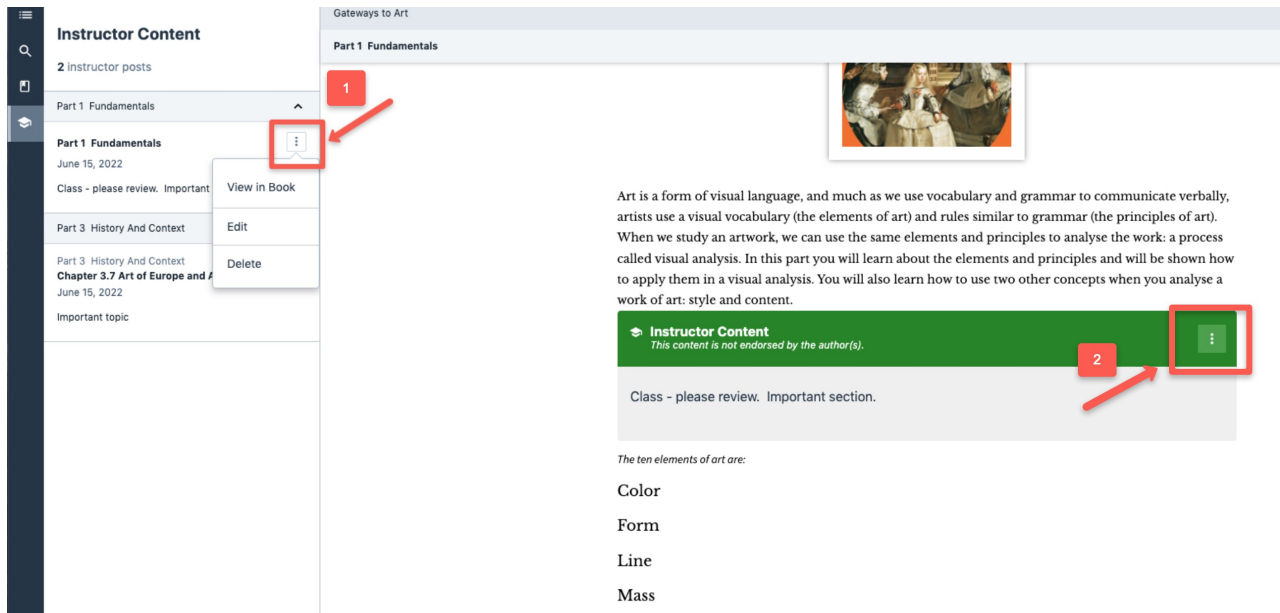

5. Descriptive text – *Content will be visible to students in all of your courses using this ebook. Be sure to check that all links, images, and videos are accessible by referring to the accessible content guidelines.*

6. Cancel button

7. Publish button

How to Edit and Delete Instructor Content

Select the Actions Menu

1. From the Ebook Menu panel

- Select Instructor Content icon
- Select the content to edit
- Click the Action Menu
- Select Edit to make revisions and Publish to save or select Delete to delete the content

2. From Instructor Content box within the Ebook

- Select the 3 dot Action Menu
- Click Edit to make revisions and Publish to save or select Delete to delete the content

Adding Accessible Images, Videos, and Links

To ensure that content that you share is accessible to all students, please refer to the [Instructor's Guide to Accessible Content](#) 

Images* can only be added to Instructor Content as a Link Address (Right click on the website image and select Copy as Link Address).

*Image format must be .jpeg and .png

To view instructions how to add an image to Instructor Content, please click [here](#).

Note: In order for students to view your Instructor Content, they need to be enrolled in your Student Set.

Can I monitor student and class-wide reading activity?

Instructors can monitor activity in three ways:

1. **Individual student reading activity:** After creating a Student Set and sharing the ID with students, you will have access to each student's reading progress.
2. **Class-wide averages for reading time per chapter:** In the Select a Student Set dropdown menu on your ebook homepage, select the Student Set for which you want to view reading time. Class-wide reading averages will then populate across from each chapter link. In the Active Students column, you'll see the number of students in your Student Set who have accessed the chapter. In the Avg. Time Spent (MM:SS) column, you'll see the average time spent for students who have accessed the chapter.

The screenshot shows the top navigation bar with 'Digital Resources', 'EBOOK', and 'ebookinstructor@wnnorton.edu'. Below the navigation bar is the 'Ebook Interactive Online Textbook' header. A dropdown menu shows '15119 (Introduction to Psychology, Section 1)'. There are buttons for 'Export This Data', 'Student Grades', and 'Return To Last-Visited Page'. A table displays chapter titles, active students, and average time spent.

CHAPTER TITLE	ACTIVE STUDENTS	AVG. TIME SPENT (MM:SS)
Chapter 1 The Science of Psychology	1	320:42
Chapter 2 Research Methodology	1	56:48

3. **Individual student ebook access per chapter:** In the Select a Student Set dropdown menu on your ebook homepage, select the Student Set for which you want to view reading time. Click on the Student Grades button.

The screenshot shows the same interface as above, but with a red arrow pointing to the 'Student Grades' button. The table below shows the same data as the previous screenshot.

CHAPTER TITLE	ACTIVE STUDENTS	AVG. TIME SPENT (MM:SS)
Chapter 1 The Science of Psychology	1	320:42
Chapter 2 Research Methodology	1	56:48

Then click Time Spent at the top right of the report. You'll now be able to view both individual chapter ebook access time and aggregate access time for the entire ebook for each student.

In the Role dropdown menu, select the permission level you would like to give the person who you are adding to your Student Set. For a comparison of the four different roles, please see the Overview of Role Permissions section below. Type in the person's email address and click the Lookup button.

1. If you are adding a co-instructor as a **Full Instructor**, the person must have a Norton account with full instructor privileges. For help with this, please contact your [Norton Representative](#).
2. If you are adding a **Teaching Assistant** or **Scoring Teaching Assistant**, the person does not need to have a pre-existing Norton account. In the case that they do not have a Norton account, we will send them an email with log in instructions once you add them to your Student Set.
3. If you are adding a student as a **Teaching Assistant** or **Scoring Teaching Assistant**, you are changing their permissions in **all** Norton products. If they are enrolled as a student in another Student Set, please have them register with a **separate email address** when logging in as a Teaching Assistant or Scoring Teaching Assistant.
4. Once you give an account a specific level of permission in your Student Set, you cannot downgrade that account to a lower permission level. For example, if you give an account Scoring Teaching Assistant access, you cannot downgrade that account to Teaching Assistant access. If you need assistance with downgrading a Teaching Assistant or Scoring Teaching Assistant in your Student Set, please contact [Norton Customer Support](#).
