

Student Grading and Reports

Last Modified on 08/02/2024 12:29 pm EDT

In InQuizitive, students must answer a minimum number of questions in each assignment before receiving a grade and reach a Target Score to earn a 100%. This page details how instructors set up assignment score targets and then view class results.

Hide All Answers

How does grading in InQuizitive work?

- On each InQuizitive assignment, students must answer a minimum number of questions before receiving a grade. They also need to reach a certain number of points, or Target Score, to receive 100%. You can modify the minimum number of questions and Target Score at any time.
- Once students answer the minimum number of questions, they begin to receive a grade. Student grades are calculated as the percentage of the Target Score points they've accumulated. For example, if the Target Score is 1,000 points, and a student has gained 500, their current grade is 50%.
- Up until the Grades Accepted Until date for an assignment, students can answer as many questions as they'd like to reach the Target Score and receive 100%. After the Grades Accepted Until date passes, students will be able to continue to answer questions, but will no longer be able to improve their grade on that InQuizitive assignment.

How does the confidence slider work?

Students can earn additional points on each question using the confidence slider. When students increase their confidence level, the point total that could be gained or lost on that given question also increases.

- Scoring on a question ranges from 20–100 points depending on where students set their confidence level.
- A student who loses points by answering a question incorrectly on the first attempt can regain half of the points by answering the question correctly on the second attempt. **Note:** Some types of questions also allow for "second chance points" on third, fourth, or fifth attempts.
- There are three levels in an InQuizitive assignment, all reached by accumulating a certain number of points. Once a student reaches Levels 2 or 3, their point total can never fall below the point total threshold needed to reach that level.
- If a student answers 5 questions correctly in a row, they earn a bonus equal to 5% of the Target Score.
- If they haven't reached level 2 after answering 3/4 of the minimum number of questions, InQuizitive will give a "bonus question" that, when answered correctly, will immediately bump them up to level 2. Similarly, if they haven't reached level 3 after twice the minimum number of questions have been answered, they will receive a bonus question that will bump them up to level 3.

For more information, please watch [this video](#).

How do I set custom grading policies?

The only customized grading available in InQuizitive is the adjusting of the Target Score and minimum number of questions. However, if you use InQuizitive in conjunction with a campus learning management system (Blackboard, Canvas, etc.), you can set weightings and designate activities as extra credit in the learning management system gradebook.

How do I change individual student grades?

Here's how to override individual student grades from an assignment's Class Activity Report:

Navigate to the Class Activity Report for the relevant InQuizitive assignment by selecting a Student Set from the Select a Student Set drop-down menu, then clicking the Reports button across from the relevant assignment.

Alternately, when inside an InQuizitive assignment itself, you can access that assignment's class activity report by selecting Class Activity Report from the gear menu at the top right of the page.

The screenshot shows the InQuizitive interface. At the top, there is a navigation bar with "Digital Resources", "INQUIZITIVE", and the user email "iqinstructor@wnorton.edu". Below this, the InQuizitive logo and "Formative Adaptive Quizzing" are displayed. A dropdown menu is open, showing "58411 (Psychology 101, Section 1)" with a red arrow pointing to it. To the right of the dropdown is a "Student Grades" button. Below the dropdown is an "Export This Data" button. To the right of the export button is a "Create Custom InQuizitive Assignment" button. Below these buttons is a table with the following columns: "ASSIGNMENT TITLE", "GRADES ACCEPTED UNTIL", "SUBMITTED GRADES", "AVG. TIME SPENT (MM:SS)", and "AVG. GRADE". The table contains two rows: "How to Use InQuizitive" with a "Reports" button and "Chapter 1: The Science of Psychology" with "[set]". A red arrow points to the "Reports" button.

ASSIGNMENT TITLE	GRADES ACCEPTED UNTIL	SUBMITTED GRADES	AVG. TIME SPENT (MM:SS)	AVG. GRADE
How to Use InQuizitive	07/20/18 11:59 PM	1	3:46	100%
Chapter 1: The Science of Psychology	[set]	—	—	—

Click the Details button across from the relevant student's name.

Back to Instructor Options

Please note, the class-wide Grades Accepted Until date will not change but when the student logs into their account, their new GAU will be displayed and they will be able to complete the activity for a grade until the new GAU passes.

Also, you can only extend the GAU for one student, in one assignment at a time. If you need to adjust the GAU for multiple students within multiple assignments, you will need to follow the steps above for each individual student within each assignment.

Please note, adjusting the GAU for an individual student will not cause the student's grade to automatically update. For example, if you have a student who earned 100% on an InQuizitive assignment after the class-wide GAU has passed, the recorded grade for that student is 0% since the assignment wasn't completed prior to the passage of the GAU. If you attempt to give that student credit for the 100% earned after the passage of the class-wide GAU by only adjusting the individual GAU for that student, the student's recorded grade will not automatically update to 100%. For now, please use the Override Grade feature discussed in the article above to update the student's grade manually or change the class-wide GAU so that the student's grade will occur within the updated class-wide GAU.

How do I clear a student's submission and reset their grade?

Here's how to completely clear a student's submission and reset their grade:

Navigate to the Class Activity Report for the relevant InQuizitive assignment by selecting a Student Set from the Select a Student Set drop-down menu, then clicking the Reports button across from the relevant assignment.

Alternately, when inside an InQuizitive assignment itself, you can access that assignment's Class Activity Report by selecting Class Activity Report from the gear menu at the top right of the page.

The screenshot shows the InQuizitive interface. At the top, there is a navigation bar with "Digital Resources" on the left, "INQUIZITIVE" in the center, and the user email "iqinstructor@wnorton.edu" on the right next to a gear icon. Below the navigation bar, the InQuizitive logo and "Formative Adaptive Quizzing" are displayed. A dropdown menu shows "58411 (Psychology 101, Section 1)". There are buttons for "Export This Data", "Student Grades", and "Create Custom InQuizitive Assignment". A table lists assignments with columns for "ASSIGNMENT TITLE", "GRADES ACCEPTED UNTIL", "SUBMITTED GRADES", "AVG. TIME SPENT (MM:SS)", and "AVG. GRADE". The first row is "How to Use InQuizitive" with a "Reports" button. The second row is "Chapter 1: The Science of Psychology" with "[set]". Red arrows point to the gear icon, the dropdown menu, and the Reports button.

Please note, this process will completely erase this student's work and reset the assignment. This action cannot be undone so please be careful! When the student accesses the assignment again, they will start the assignment from the beginning.

Where do I view student results?

If you're using an InQuizitive product homepage (a webpage that lists all of the InQuizitive activities available for a book), you have access to a Class Activity Report where you can view student grades, duration for each assignment, as well as an overall InQuizitive average for each student.

Here's how to access a Class Activity Report:

Select a Student Set in the Select a Student Set drop-down menu.

✓ SELECT A STUDENT SET
