

Migration Tool

Last Modified on 07/01/2024 4:13 pm EDT

This tool allows instructors to import all custom questions and assignments from an older edition to a new edition.

Hide All Answers

New Edition

1. When you sign into Smartwork and select a Student Set, you will see a banner message noting that all of your custom questions have been imported to your Question Library for the new edition.

The screenshot shows the Smartwork5 interface. At the top, there is a navigation bar with "Digital Resources" on the left, "SMARTWORKS" in the center, and the user email "instructor@wnorton.edu" on the right. Below the navigation bar is a dark banner with the text: "All of your custom questions from the previous edition have been imported to the Question Library in this new edition." To the right of this banner is a close button (X). Below the banner, there is a message: "You have custom assignments from previous student sets that you can move to this student set 153329, Fall 2020. If you'd like to do this later, select 'Import Custom Assignments' from the gear menu." To the right of this message is a green button labeled "Import Custom Assignments". Below this is a section for the course "Principles of Economics, THIRD EDITION" by Lee Coppock, Dirk Mateer. Further down, there is a "Smartworks5 Interactive Problem Solving" section with a dropdown menu showing "153329 (Fall 2020)", an "Export This Data" button, and "Student Grades" and "Create New Assignment" buttons. At the bottom, there is a table with the following columns: ASSIGNMENT TITLE, PUBLISHED, GRADES ACCEPTED UNTIL, EXTRA CREDIT, SUBMITTED GRADES, AVG. TIME SPENT (MM:SS), and AVG. GRADE. The table contains one row: "Tutorial: Math Review" with a "PUBLISHED" checkbox, and dashes in the other columns.

ASSIGNMENT TITLE	PUBLISHED	GRADES ACCEPTED UNTIL	EXTRA CREDIT	SUBMITTED GRADES	AVG. TIME SPENT (MM:SS)	AVG. GRADE
Tutorial: Math Review	<input type="checkbox"/>	—	<input type="checkbox"/>	—	—	—

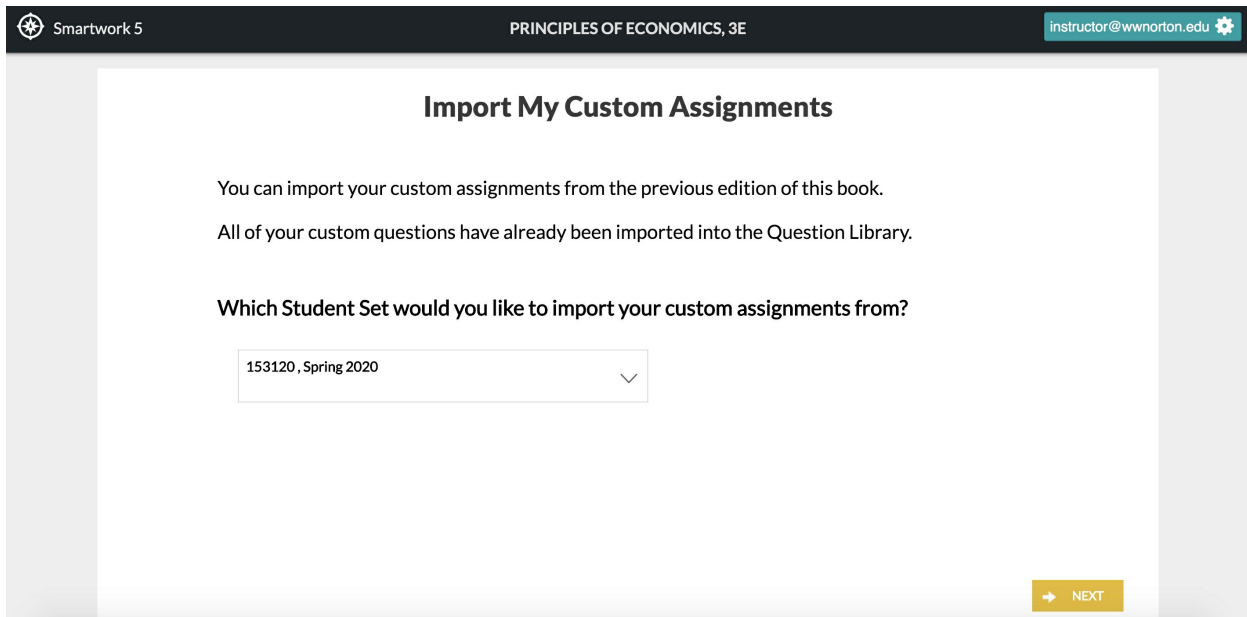

2. To import all of your *custom assignments* from a previous student set into the current student set, select Import Custom Assignments.

Note: If you want to import your custom assignments later, you can select "Import Custom Assignments" from the gear menu at any time.

This screenshot is similar to the previous one but shows the gear menu open. The gear menu is located in the top right corner and contains the following items: "Manage Student Sets", "Show Student View", "Import Custom Assignments" (highlighted with a red arrow), "Help", "Change Your Email", "Change Your Password", and "Sign Out". The "Import Custom Assignments" button is also visible in the main interface, to the left of the gear menu.

ASSIGNMENT TITLE	PUBLISHED	GRADES ACCEPTED UNTIL	EXTRA CREDIT	SUBMITTED GRADES	AVG. TIME SPENT (MM:SS)	AVG. GRADE
Tutorial: Math Review	<input type="checkbox"/>	—	<input type="checkbox"/>	—	—	—

3. A new browser tab will open. From the dropdown menu, select the student set you want and then NEXT.

Smartwork 5 PRINCIPLES OF ECONOMICS, 3E instructor@wwnorton.edu

Import My Custom Assignments

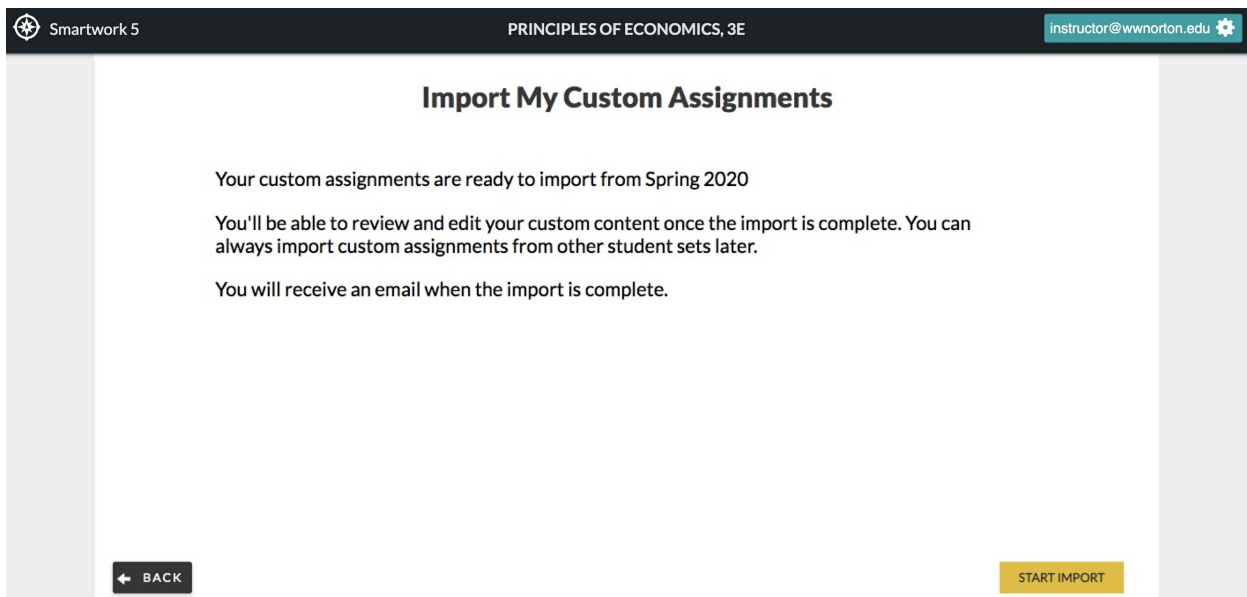

You can import your custom assignments from the previous edition of this book.
All of your custom questions have already been imported into the Question Library.

Which Student Set would you like to import your custom assignments from?

153120, Spring 2020

NEXT

4. A confirmation page will show that your custom assignments are ready to import from the student set you selected. Select START IMPORT to proceed.

Smartwork 5 PRINCIPLES OF ECONOMICS, 3E instructor@wwnorton.edu

Import My Custom Assignments

Your custom assignments are ready to import from Spring 2020

You'll be able to review and edit your custom content once the import is complete. You can always import custom assignments from other student sets later.

You will receive an email when the import is complete.

BACK START IMPORT

5. Your assignment import will begin. Select CLOSE to return to the main page.

Assignment Import Has Started

Your assignment import has started. You will be notified by email once your import is complete.

You'll be able to access your custom assignments once the import is complete.

[CLOSE](#)

6. Once your custom assignments are imported, you will receive an e-mail notification that the import was completed.

Your custom assignments have successfully imported.

Your assignments from Summer 2020, 153330, have successfully imported to Fall 2020, 153416. Some questions may be assigned to different chapters, sections, and/or learning objectives in this book than they were previously.

 **9 questions** did not map to any chapters or sections in this book. This most likely happened because the content of the book was changed. You will need to assign questions to chapters and sections in order to publish them in assignments.

 **W. W. NORTON**

[Contact our Help Desk](#)

You will also see a confirmation message on the main page that your custom assignments were successfully imported. Select "X" to dismiss the message.

You imported this custom assignment from the previous edition.

Remove Alert

Previous Edition

After importing your custom questions and assignments into the new edition, you may still access your student sets in the previous edition. If a custom question is created or updated in the previous edition after you've migrated your questions to the new edition, the question will be automatically migrated to the new edition.

Unmapped Questions

If there was a warning message in the import notification e-mail, you will need to assign the questions to chapters and sections in your new student set in order to publish them in assignments.

Chapter 3 - Homework Assignment

Welcome!
Click on "Edit Assignment" to start customizing the settings and add as many questions as you want.
