Deleting a Premade Assignment

1. To delete a premade assignment, click **Delete** next to the premade assignment.

The screenshot shows the Smartwork5 interface for a course titled 'Essentials of Geology' by Stephen Marshhak. The interface includes a navigation bar with 'Digital Resources', 'SMARTWORKS', and the user's email 'fbueller@wwnorton.edu'. Below the course title, there are buttons for 'Export This Data' and 'Create New Assignment'. A dropdown menu shows the current student set: '57886 (Spring 2018, Tues Thurs 9:00-11:00am)'. A 'Student Grades' button is also visible. The main content is a table of assignments:

Deleted assignments will be removed from the assignments list for both your students and for you. **This cannot be undone.**' At the bottom right of the dialog, there are two buttons: 'Cancel' and 'Delete'.
