

Import tests to Learning Management Systems

Last Modified on 07/01/2024 4:42 pm EDT

Important:

- To avoid compatibility problems and import failures in some Learning Management Systems, avoid using the following characters in the Test Name and Course Name: # & - - : ; @ / \

How do I import my test to Canvas?

After building your test, you'll want to download it before uploading it to your Canvas course. Here's how to do [this](#).

UPLOAD THE FILE

1. Log into your Canvas course and navigate to **Settings**.
2. From the Settings link, select **Import Course Content** on the right-hand column menu.
3. In the **Import Content** window, select Blackboard 6/7/8/9 export .zip as your Content Type. (Note: You will need to select Common Cartridge 1.x Package for "Made by Norton" premade tests.)
4. Browse for your saved file ending in ZIP and select **All Content**.
5. Click **Import**.

Please Note: Selecting **Canvas Course Export Package** will causes problems for your course.

WORKING WITH THE TEST

- Your test will be visible in three locations in Canvas:
 - as a new quiz on your **QUIZZES** page,
 - as an un-published quiz in a new module named "WW Norton" on your **Modules** page,
 - and as a question bank on your **Question Banks** page.

You can edit, move, or delete any of these instances depending on how you want to use your test.

- Before publishing, be sure to preview questions for proper image display and settings.
- Customize your quiz settings as needed, then publish the quiz to make it visible to students.

* Note that edits made to the test will not be made to the same question in your question banks area, as the two are not linked automatically in Canvas.

How do I import my test to D2L/Brightspace?

After building your test, you'll want to download it before uploading it to your D2L/Brightspace course. Here's how to do [this](#).

UPLOAD THE FILE

1. Log into your D2L/Brightspace course and navigate to **Course Admin**.
2. Click on the **Import/Export/Copy** tool and then in the next window, click on **Import Components** and **Start**.

3. In the pop-up window **Import Course Package**, click on the **Upload** button.
4. Locate the ZIP file you've saved and select it. (Note: for "Made by Norton" premade quizzes, the file exported from Testmaker will be an imsc file.)
5. Click on **Import All Components** and allow the import process to complete.
6. Click **View Content** to return to your course.

WORKING WITH THE TEST

- Your test will be visible in two locations in D2L/Brightspace:
 - as a new quiz on your **QUIZZES** page,
 - and as an un-published quiz in a **new module** named **WW Norton** on your home page.

You can edit or move the quiz.

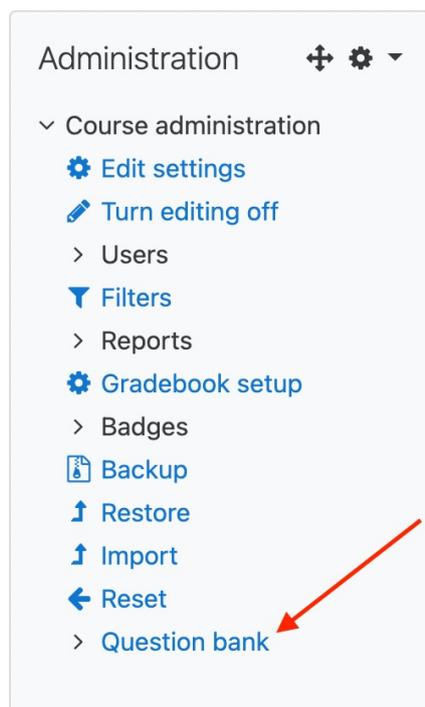

- Select your quiz settings before publishing it so it is visible to students.

How do I import my test to Moodle?

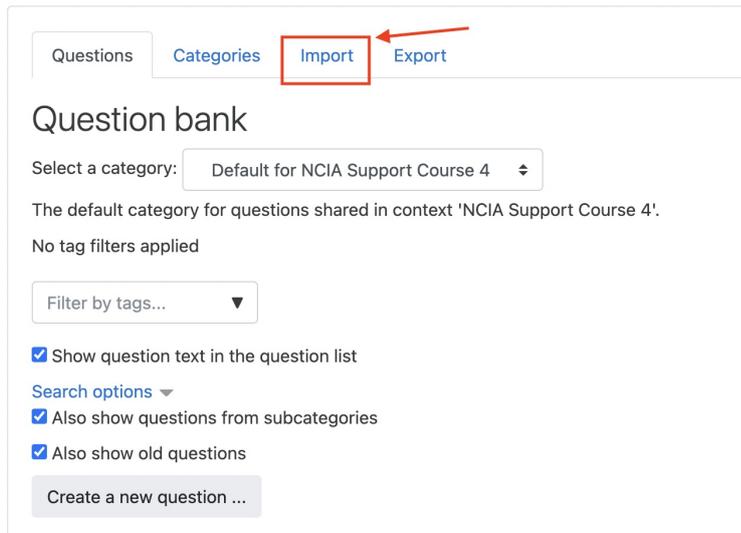

After building your test, you'll want to download it before uploading it to Moodle. Here's how to do [this](#).

Note: These instructions are for how to import your custom tests. For instructions on how to import "Made by Norton" premade tests, please follow the instructions found [here](#).

1. Log into Moodle.
2. Navigate to the course where you wish to import the test.
3. Under **Course Administration** select **Question bank**.

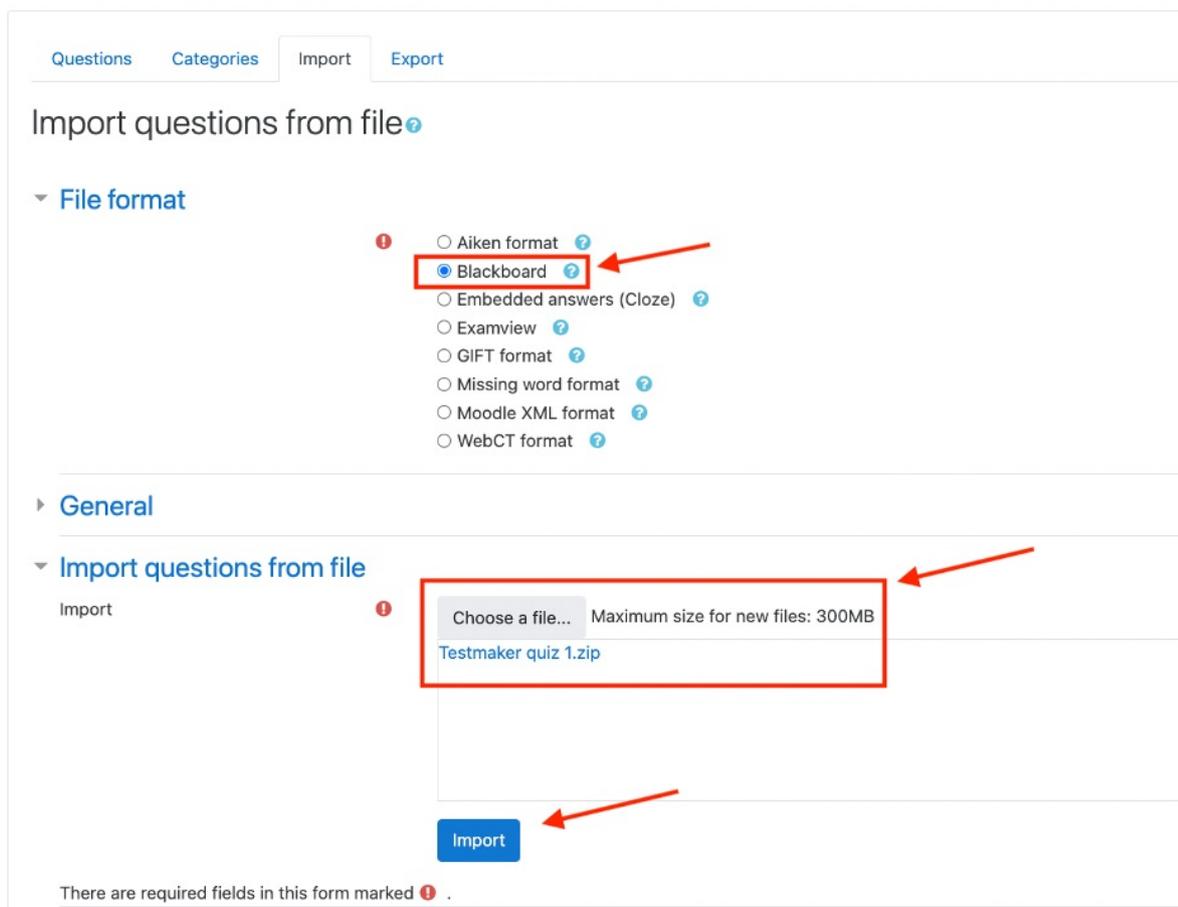

Then select the Import tab from the next screen.

The screenshot shows the 'Question bank' interface. At the top, there are four tabs: 'Questions', 'Categories', 'Import', and 'Export'. The 'Import' tab is highlighted with a red box and a red arrow pointing to it. Below the tabs, the title 'Question bank' is displayed. Underneath, there is a dropdown menu for 'Select a category:' with the value 'Default for NCIA Support Course 4'. Below that, it says 'The default category for questions shared in context 'NCIA Support Course 4''. There is also a section for 'No tag filters applied' with a 'Filter by tags...' dropdown. At the bottom, there are three checked checkboxes: 'Show question text in the question list', 'Also show questions from subcategories', and 'Also show old questions'. A 'Create a new question ...' button is also visible.

4. From the import tab, select Blackboard as the file format. Then click Choose File, navigate to and select the downloaded zip file, then click Import.

The screenshot shows the 'Import questions from file' interface. At the top, there are four tabs: 'Questions', 'Categories', 'Import', and 'Export'. The 'Import' tab is active. Below the tabs, the title 'Import questions from file' is displayed. Underneath, there is a section for 'File format' with a list of radio buttons: 'Aiken format', 'Blackboard', 'Embedded answers (Cloze)', 'Examview', 'GIFT format', 'Missing word format', 'Moodle XML format', and 'WebCT format'. The 'Blackboard' option is selected and highlighted with a red box and a red arrow. Below this, there is a section for 'General' and a section for 'Import questions from file'. In the 'Import questions from file' section, there is a 'Choose a file...' button with a red arrow pointing to it. Below the button, the file 'Testmaker quiz 1.zip' is listed. At the bottom of the section, there is an 'Import' button with a red arrow pointing to it. At the very bottom, there is a message: 'There are required fields in this form marked [red icon]'.

5. Once you have the question bank imported, you will need to create your quiz. To do so, navigate back to the home screen for your course and click "Add an Activity or resource" to the right of Topic modules.

6. In the window that appears, select Quiz from the options on the left. Then click add.

7. Title your quiz, then click **Save and Display**.

8. On the next screen, click **Edit quiz**, then navigate to the right of the screen and select the “add” option followed by “from question bank” to add questions from your question bank.

Restore into this course

Merge the backup course into this course

Delete the contents of this course and then restore

Continue

9. In the window that appears, select your quiz from the “Select a category” dropdown and select your questions from the question bank. Then click “add selected questions to the quiz” and save.

You can move the quiz from the top module to the appropriate module using the cross arrows beside the name of the quiz on the **Course Main Screen**.

How Do I import my test to a Blackboard Course?

After building your test, you’ll want to download it before uploading it to Blackboard. Here’s how to do [this](#).

1. Log into your Blackboard course.
2. Navigate to the course where you wish to import the test.
3. On the left navigation select **Packages and Utilities**.
4. Select **Import Package/View Logs**.
5. Select **Import Package** from the top navigation bar.
6. Under **Select Package** click **Browse My Computer**.
7. Locate and select the ZIP file downloaded from Norton Testmaker. (Note: For “Made by Norton” premade tests, this will be an imsc file.)
8. Scroll down to **Select Content Areas**. * Ensure that the only item with a check mark is **Test, Surveys, and**

Pools

9. Click **Submit** in the lower right of screen.

You will receive a notice at the top of your course when the operation is complete. You may also receive an email when the process is complete.

Deploy the test to the student-facing area of your course

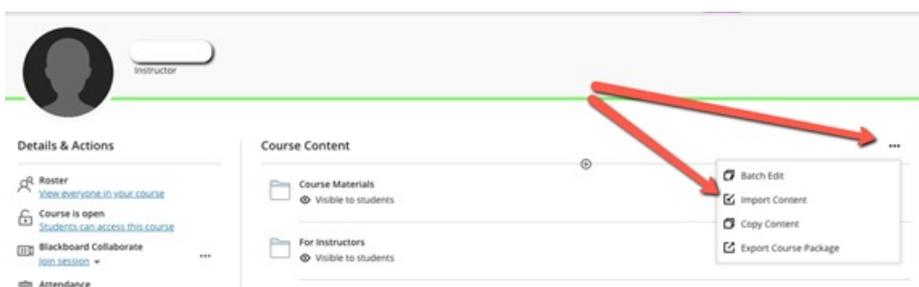

1. Once the import operation is complete, navigate to the area of the course where you wish to place the test for students to access.
2. At the top navigation bar select **Assessments**.
3. Select **Test**.
4. **Add Test** — locate the new test uploaded earlier.
5. Click **Submit**.
6. The **Test Options** screen will appear.
7. Modify these settings to meet your requirements for the test.
8. Click **Submit**.

You will return to the area of the course with the quiz now deployed. The quiz will appear at the bottom of the screen.

How Do I import my test to a Blackboard Ultra Course?

After building your test, you'll want to download it before uploading it to Blackboard Ultra. Here's how to do [this](#).

1. Log into your Blackboard Ultra course.
2. Navigate to the course where you wish to import the test.
3. In the upper right corner, click on the three dots.
4. Select **Import Content**.

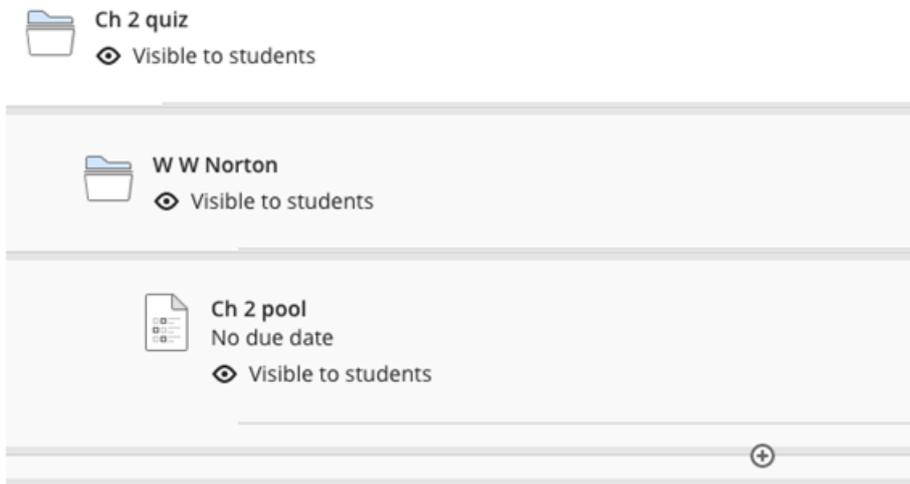

5. Select **Import Course Content**.

- You will be prompted to select a file from your computer.
- Locate and select the ZIP file downloaded from Norton Testmaker. (Note: For Made by Norton premade tests, this will be an imsc file.)
- Select Import.

- The quiz will appear in a folder in your content area.

Test Content

How do I import my test to Schoology?

After building your test, you'll want to download it before uploading it to your Schoology resources.

You will need to add the test file to your Schoology Resources in order to add the exam to your course.

Upload the file to Schoology

1. Log in to Schoology and navigate to your **Resources** and select **Personal** from the list.
2. Click the down facing arrow in the left column and select **Import**.
3. Select the option to import from **Blackboard (ZIP)**. Note: for "Made by Norton" premade tests, you will need to select Common Cartridge (IMSCC or ZIP).
4. Select **import to a new collection** or choose from an **existing collection** and give the new folder a name.
5. Click **Next** and upload the file to Schoology.
6. Click **Next** to complete.

For additional functionality and flexibility in Schoology, you can choose to convert the test to an Assessment by choosing the **Convert to Assessment** option under the gear menu.

Add the test to your course

1. Go to the course to which you want to import the exam.
2. Click **Add Materials** and select **Import from Resources**.
3. Find the test you uploaded, select it, and click **Import**.
4. Click **Advanced Options** to adjust any settings and click **Import**.

Norton test content can be edited as needed by clicking the gear next to each question either in the test in your

Schoology resources or in a test in your course.
