

Adding Questions to a Test

Last Modified on 07/01/2024 4:35 pm EDT

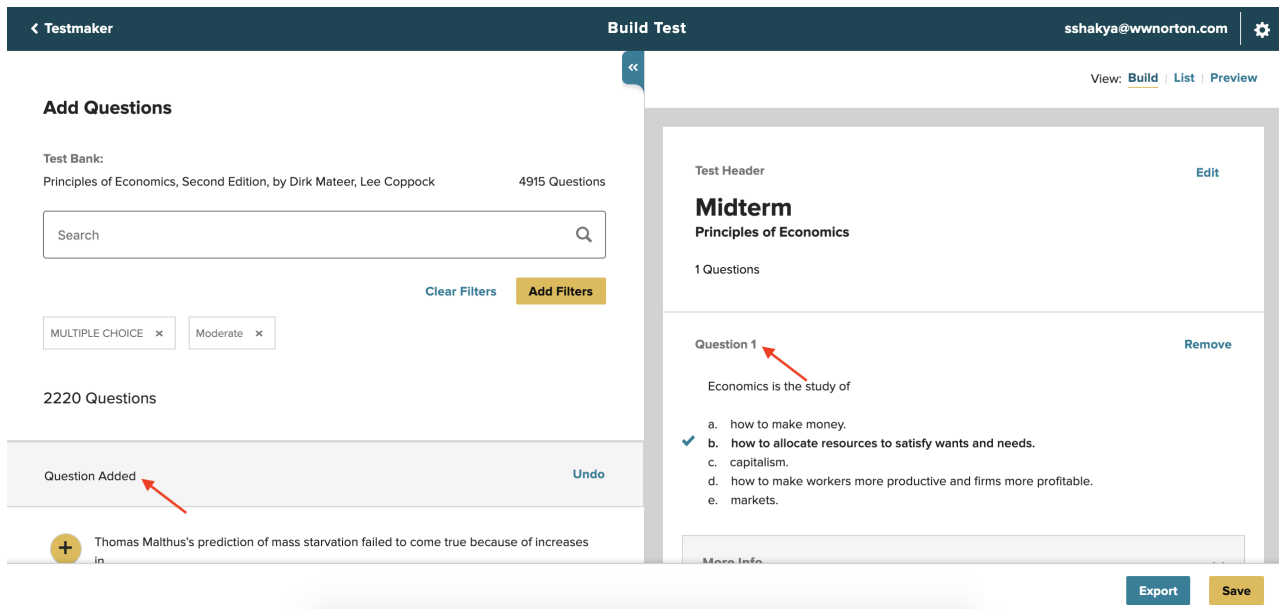

Questions may be added individually to a test.

1. Click the "add question" icon next to your desired question in the "Add Questions" panel.

The screenshot shows the 'Build Test' interface. On the left, the 'Add Questions' panel displays a test bank for 'Principles of Economics, Second Edition, by Dirk Mateer, Lee Coppock' with 4915 questions. A search bar and filter buttons are visible. Below, a list of questions is shown, with the first question selected: 'Economics is the study of' with options a. how to make money, b. how to allocate resources to satisfy wants and needs, and c. capitalism. A red arrow points to the '+' icon next to this question. On the right, the test preview panel shows the test header 'Midterm Principles of Economics' and a message 'Add questions from a test bank'. At the bottom right, 'Export' and 'Save' buttons are present.

2. After clicking the "add question" icon, the question will be added to the test in the right panel. The question will be removed from the "Add Questions" list and a "Question Added" notification will be displayed in its place. Questions from the test bank can only be added once.

The screenshot shows the 'Build Test' interface after a question has been added. In the 'Add Questions' panel, the question 'Economics is the study of' has been removed, and a 'Question Added' notification is displayed with an 'Undo' button. A red arrow points to this notification. The test preview panel on the right now shows '1 Questions' and the added question 'Question 1' with the same options as in the previous screenshot. A red arrow points to 'Question 1' in the preview. At the bottom right, 'Export' and 'Save' buttons are present.
