

Adding Questions to a Test

Last Modified on 03/12/2026 5:38 am EDT

Questions may be added individually to a test.

1. Click the "add question" icon next to your desired question in the "Add Questions" panel.

The screenshot shows the 'Build Test' interface. On the left, the 'Add Questions' panel displays a test bank for 'Principles of Economics, Second Edition, by Dirk Mateer, Lee Coppock' with 4915 questions. A search bar and filter buttons are present. Below, a list of 2221 questions is shown. A red arrow points to a question: 'Economics is the study of' with options: a. how to make money, b. how to allocate resources to satisfy wants and needs, c. capitalism. A yellow plus icon is next to the question. On the right, the test preview panel shows the test header 'Midterm Principles of Economics' and a message 'Add questions from a test bank'. At the bottom right, 'Export' and 'Save' buttons are visible.

2. After clicking the "add question" icon, the question will be added to the test in the right panel. The question will be removed from the "Add Questions" list and a "Question Added" notification will be displayed in its place. Questions from the test bank can only be added once.

The screenshot shows the 'Build Test' interface after a question has been added. In the 'Add Questions' panel, a 'Question Added' notification is displayed with a red arrow pointing to it and an 'Undo' button. The question list now shows 2220 questions, with the previously selected question removed. The test preview panel on the right now shows '1 Questions' and the added question: 'Economics is the study of' with options: a. how to make money, b. how to allocate resources to satisfy wants and needs, c. capitalism, d. how to make workers more productive and firms more profitable, e. markets. A red arrow points to the question title in the preview panel. At the bottom right, 'Export' and 'Save' buttons are visible.
