

How Do I Import My Test to a Sakai Course?

Last Modified on 07/01/2024 4:45 pm EDT

After building your test, you'll want to export it from Norton Testmaker before uploading it to Sakai. [See instructions to export the test from Norton Testmaker.](#)

Importing a Test to Sakai

Log into your Sakai course.

In Sakai, there are two options to import the zip file exported from Norton Testmaker. Option 1 will use the Import from Archive tool. Option 2 will use the Lessons tool in Sakai. (Note: for "Made by Norton" premade quizzes, the file exported from Testmaker will be an imsc file.)

Option 1:

- Go to Site Info and then to Import from Archive.
Note: If the Import from Archive option is not available, go to Option 2.
- Click Choose File, navigate to and select the downloaded zip file, then click Import.
- The test will appear in two places.
 - Find it in a Lessons tool.
 - Find it in Tests and Quizzes in both Published and Draft modes.

Note: You will want to review and edit the Draft test settings, and perhaps the questions as well, before publishing it. To avoid confusion, delete the deployed test in Lessons, as well as the Published version in Tests and Quizzes.

Option 2:

- If there is not a Lessons tool already in the left navigation menu, go to Site Info and then to Manage Tools to add one.
- Click on the Lessons tool in the left navigation menu and go to the More Tools dropdown menu to select Import CC/CP.
- Click Choose File, navigate to and select the downloaded zip file, then click Import.
- The test will appear in two places.
 - Find it in the left navigation menu.
 - Find it in Tests and Quizzes in both Published and Draft modes.

Note: In the Draft version, you will want to review and edit the settings and the questions as well, before publishing. To avoid confusion, delete the deployed test in Lessons, as well as the Published version in Tests and Quizzes.

Preparing the Test for Access

1. In **Assessments**, find the test in **Draft** mode.
2. Click on the **Actions** dropdown menu and select an option to configure your test settings as you would any other test. Save changes.
3. When your test is ready, select **Publish**. A published version of the test is now available in **Assessments**.
Important: Do not delete the **Draft** copy!

Display assessments per page

Title	Actions	Status
test maker test #1	<input type="button" value="Actions"/>	Published - Inactive
test maker test #2	<input type="button" value="Actions"/>	Published - Inactive
Draft - test maker test #1	<input type="button" value="Actions"/>	Draft
Draft - test maker test #2	<input type="button" value="Actions"/>	Draft

Making The Test Available to Students

1. Click on the **Lessons** item where you want the test to appear.
2. Click **Add Content** and scroll to **Link to a Test or Quiz**.
3. On the next page, select the test from the published **Existing Quizzes**.
4. The test will now be available to the student.

Create a Test Using Questions from Two or More Assessments

First, the assessment questions you want to use need to be copied to Question Pools. To do this:

1. Create placeholder in Question Pools:
 - Click **Add Pool**.
 - Give the pool a name.
 - Click **Save**.
2. In **Assessments**, work with the tests in **Draft** mode after you have completed any editing.

Draft - test maker test #1	<input type="button" value="Actions"/>	Draft			Entire Site	Jan 11, 2021 3:05 PM	Polly Helm	Jan 12, 2021 11:34 AM	<input type="checkbox"/>
Draft - test maker test #2	<input type="button" value="Actions"/>	Draft			Entire Site	Jan 12, 2021 11:35 AM	Polly Helm	Jan 12, 2021 11:36 AM	<input type="checkbox"/>

3. From the **Actions** dropdown, select **Edit**.
4. On the next page, click on **Copy to Pool** in the upper-right corner.
5. On the next page, select the placeholder by putting a checkmark in the box on the left.
6. Click **Copy**.

7. Repeat for any other questions you want to add from **Assessments**.

The screenshot shows a web interface for 'TESTS & QUIZZES'. At the top, there are navigation tabs: 'Assessments', 'Add', 'Question Pools', 'Event Log', 'User Activity Report', and 'Trash'. The 'Question Pools' tab is active. Below the tabs, there are buttons for 'Link', 'Help', and a close icon. The main section is titled 'Question Pools' and contains a sub-header with links for 'Add New Pool', 'Import Pool', and 'Transfer Ownership'. Below this is a table with the following columns: 'Pool Name', 'Owner', 'Last Modified', 'Questions', 'Subpools', and 'Delete?'. A single row is visible in the table with the following data: 'test maker tests #1 and #2 combined' (highlighted in yellow), 'Polly Helm', 'Jan 12, 2021 12:18 PM', '12' (in a yellow box), '0', and a delete checkbox. Below the row name are links for 'Add Subpool', 'Copy', 'Move', and 'Share'.

Pool Name	Owner	Last Modified	Questions	Subpools	Delete?
test maker tests #1 and #2 combined	Polly Helm	Jan 12, 2021 12:18 PM	12	0	<input type="checkbox"/>

8. You can now create a new test from the **Lessons** tool and have access to the questions from **Question Pools**.
