

How do I import the Resources for Your LMS to Canvas?

Last Modified on 08/01/2024 10:07 am EDT

RLMS files are integrated course content packages to easily add high-quality Norton digital resources to your online, hybrid, or lecture courses. Norton provides these packages for Canvas.

To access book specific resources, first [locate your book by discipline and title from here](#).

For this course to function properly, you will need to ensure that LTI integration is enabled and supported on your school's learning management system.

If you are unsure, look for the W. W. Norton External App in your Canvas course

- Navigate to the *Settings* page
- Select *Apps*
- Select the *View App Configurations* button
- Scroll to find the W. W. Norton App

If the App does not exist you can contact your local Canvas administrator and ask if Norton is an LTI tool provider at your school. If Norton is not yet an approved tool provider, please contact your local Norton representative for assistance. Find your representative [here](#).

Resources for your LMS (RLMS) is a Canvas Course Export Package file. To add these resources to your Canvas course, you will import the imsc file to a blank shell.

Canvas - RLMS file import

- Download the Canvas Course Export Package file from the Instructor Resource page for your text by selecting the download button beside the Canvas Resources.
- The downloaded file will have an .imsc extension. Do not attempt to open the file at this time.
- Log into your course shell in Canvas and navigate to the *Settings* page.
- On the *Settings* page, click on *Import Content into this Course*.
- This opens a page where you'll select your file type.
- In the *Content Type* field on the next page, select *Canvas Course Export Package*.
- Browse for your file ending in imsc on your desktop.
- If you want to select specific items, check off *Select specific content*.
- Click on *Import*, and the system will begin the import process.

If you are selecting specific content, use the blue button to bring up the list of available materials.

Check off your desired content, and then click the *Select Content* button to begin the import process.

- While the import is running, a progress bar will appear on your page.

- When the import is complete, a button appears stating *Completed*.
- Return to the *Modules* to see your content.

Next Steps

- In order to complete your course set up, you must create a Student Set for your Norton product. Steps to get you started can be found here: [Create a Student Set](#)

Reporting error messages

Please take a screenshot and/or copy the text from the error message and contact [W. W. Norton Customer Support](#) for assistance. A support specialist will contact you to assist with further troubleshooting.
