How to Deploy a Test in Canvas

To deploy a quiz and make it available to your students, follow these steps.

1. From your QUIZZES page, click on the title of the exercise to open it for editing.

2. In the top right quiz menu, select EDIT to open the quiz options.

3. Select your availability, display, and reporting options, then click the SAVE AND PUBLISH button on the bottom of the page.

4. Add to the content module using the PLUS icon next to the module title.

5. Drag to the location within the module where the quiz will display.
