

Blackboard LMS Integration with Norton Learning Tools

Last Modified on 05/07/2025 3:11 pm EDT

Before you use the Deep Linking Tool (DLT) to add links to your Blackboard course, two things need to be done:

1. Your campus Blackboard administrator has installed the DLT 1.3 Tool.
2. You have a Norton user account.

If you think either of these isn't already done, then reach out to your [Norton rep](#) for help.

If you've confirmed you're ready to go, you can get started by launching Norton Deep Linking Tool from your Blackboard content area, or review the steps below for more details.

Log into the Deep Linking Tool with your Norton account

1. The W. W. Norton Learning Tools deep linking tool is accessed from any Content area in Blackboard.

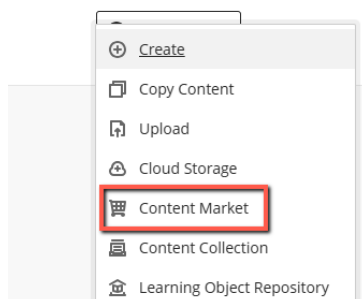

Ultra View

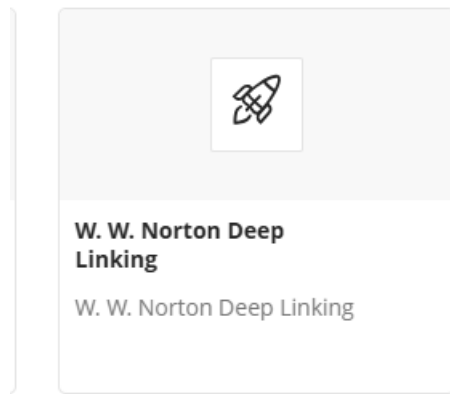

From any content area click Add Content, and choose the Content Market. From the Institution Tools section, select W. W. Norton Deep Linking.

This course is ready for content.
Use this space to build your course.

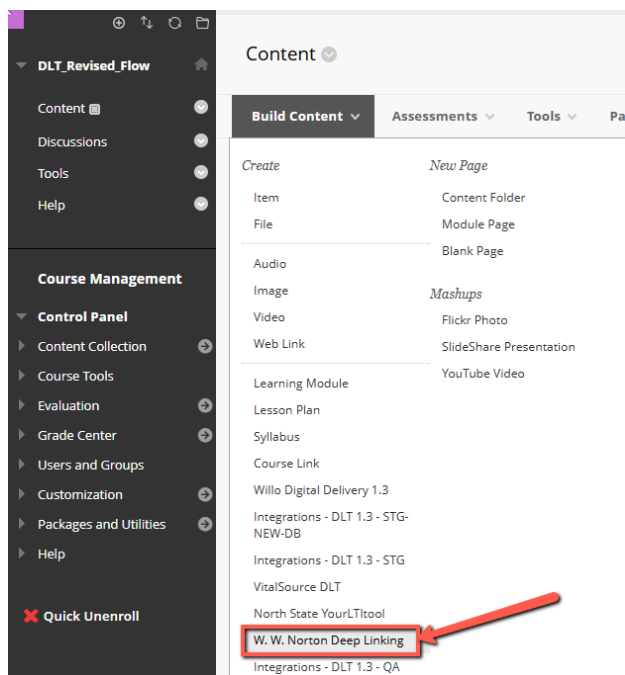

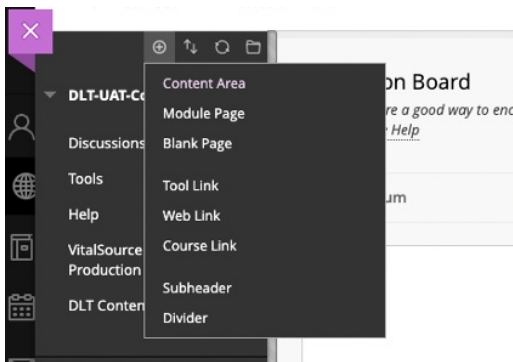

[Add Content](#)

Original View

From any content area click Build Content, and select Norton Learning Tools.

2. In a new tab, W. W. Norton Learning Tools will open, and ask you to log in.

- Log in using the email and password tied to your **Norton** account.
- You need to have a Norton account already. If you don't, then reach out to your Norton rep for help.

Log In

[Help Desk](#)

Create a Norton course, which is matched to your Blackboard course

3. Next you'll create a Norton course.

- Each Blackboard course is matched to a Norton course. You'll need to set this up just once per Blackboard course.
- This is a 4-step process.

4. **Create a Course, Step 1.** This step confirms that you're connected with your Blackboard course.

Create a Course with W. W. Norton

Step 1 of 4 [>](#)

LMS Connection

✓ Successfully connected to your Learning Management System (LMS).

[Continue >](#)

5. **Create a Course, Step 2.** Select your course material.

Select Course Material

Select Book

- ☒ Search by Book Title
- ☐ Enter Product Code [?](#)

Discipline

Select discipline

Book title

Select book title

[?](#) Don't see your book?

[< Previous](#)

[Continue >](#)

You can search for course material in two ways:

a. **Search by Book Title.** Use this search to browse from available titles to find the textbook you're assigning. This will be the most commonly used option.

1. Use the type-ahead *discipline* and *book title* fields to find your Norton text
2. Use the cover and edition details to choose the correct version

Select Course Material

6. Confirm that you've selected the right book for your course.

7. If you need to opt in to any First Day or Inclusive Access program, you'll be prompted to do so.

8. **Create a Course, Step 3.** Enter some required course details.

- The **School Type**, **Country**, **School State/Province**, and **School Name** fields all work to tie your course to the right school record.
- The **Course Name** can be up to 35 characters long.
- The **Start Date** is the first day of student access to the course.
- The **End Date** is when you expect all course grades to be final.

[< Previous](#)[Create Course](#)

10. Click Create Course, and you will be taken to the content selector.

Select and send links into your Blackboard course

Choose your integration type

For graded assignments, you may choose to send individual assignment links (most popular), or product homepage links.

- Choose individual assignment links if you want your students to access separate links for each assignment in Blackboard. This will create separate grade columns in the Blackboard gradebook for each assignment per student.
- Choose product homepage links if you want your student to have one link in Blackboard for each Norton product. This will create one grade column for each Norton product in the Blackboard gradebook per student. This grade is a cumulative average of all assignments for that product.

Select integration type for Blackboard

Select the type of integration for all gradeable Norton Learning Tools (required).

- ☐ **A. I want individual assignment links for Blackboard** Most Popular

Gradebook		
Name	Assignment 1	Assignment 2
Average		
First Last		
First Last		
First Last		

Why choose individual assignment links?

- You want your students to access separate links for each assignment in Blackboard.
- You want to have separate grades columns in the Blackboard grade book for each assignment per student.

- ☐ **B. I want product homepage links for Blackboard**

Gradebook	
Name	Product Total
Average	
First Last	
First Last	
First Last	

Why choose Product Homepage links?

- You want your students to have one link in Blackboard for each Norton product.
- You want to have one grade column for each Norton product in the Blackboard gradebook per student. This grade is a cumulative average of all assignments for that product.

Option 1: Adding deep links to individual assignments:

After you select "I want individual assignment links for Blackboard", you'll see the **Select Norton Learning Tools** screen

- Each linkable resource for your book is listed here.
 - They're grouped into sections according to type.
 - As you browse these, you can expand or hide activity sections by clicking the gray section headings.
- You don't have to select all your links at once
 - You can launch this tool from your Blackboard course to add additional links throughout the semester

[← Back: Select integration type for Blackboard](#)

Select Norton Learning Tools for Blackboard

Select and send resources and assignments to Blackboard for single sign-on and grade syncing. You can return to this tool at any time to select additional content.

Not ready to select content? [Browse Norton content](#)

For graded individual assignment links, we recommend setting Due Date and LMS Point Value here *before* sending them to Blackboard. [More info](#)

For ungraded individual assignment links, Due Date and LMS Point Value will be unavailable.

<input type="checkbox"/> Chapter 4. The Organization of Musical Sounds	ON		10	Not Sent

Set Due Date

Due Date

mm/dd/yyyy

Time

11:59 PM

Clear

Cancel

Set Due Date

This due date is saved both into the Blackboard course and into Norton's activity settings, so the student will see consistent information about when an assignment is due.

But, please be aware that if you change the due date after you've linked the activity to Blackboard, you will need to update both in Blackboard and in Norton. The dates don't keep in sync automatically after the activity is sent to Blackboard.

3. If you turn LMS Grade Column **off**, the link will be sent as an ungraded LTI link, and no grade will report to the LMS.
