Due to a default cookie setting within Safari, the worksheets may fail to completely load and your screen will look like this:

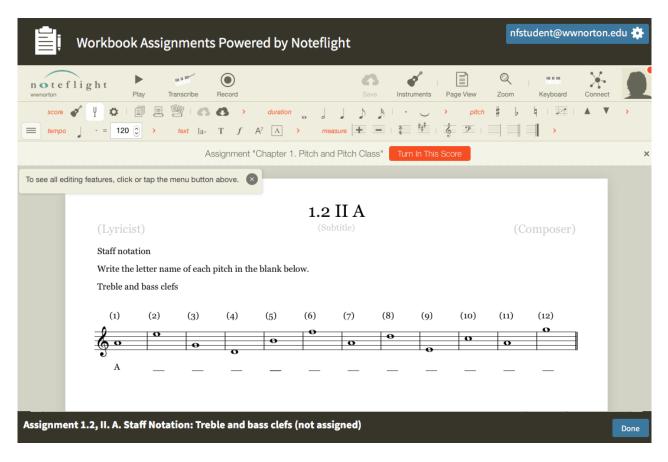

There are two solutions to this issue:

The quick and easy solution...

Before opening a worksheet in the online workbook, open a new tab in your Safari browser and go to noteflight.com. After the page loads completely, you can simply close the tab and return to the online workbook; you do not need to sign in or interact on Noteflight's site.

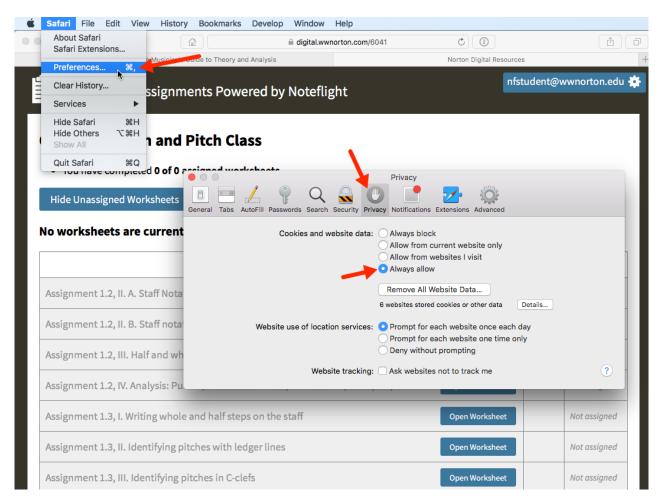

After you close the Noteflight tab and return to the online workbook, you should now be able to successfully open and interact with all of the worksheets using Safari on your computer or iOS device.

The permanent solution for macOS...

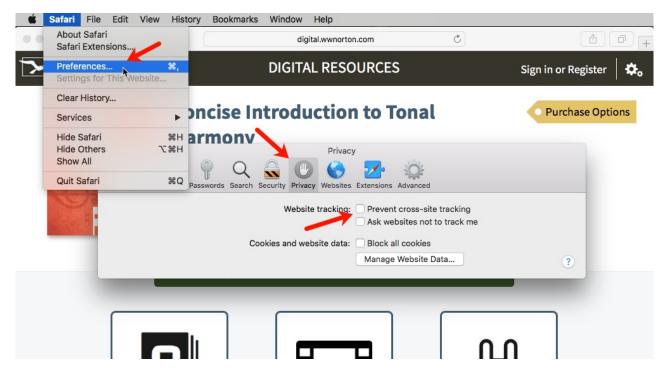

For Safari versions 11.0 or less

To fix this issue permanently within Safari on your computer, open the Safari menu, click on Preferences..., select the Privacy tab, and change the Cookies and website data setting to Always allow cookies.

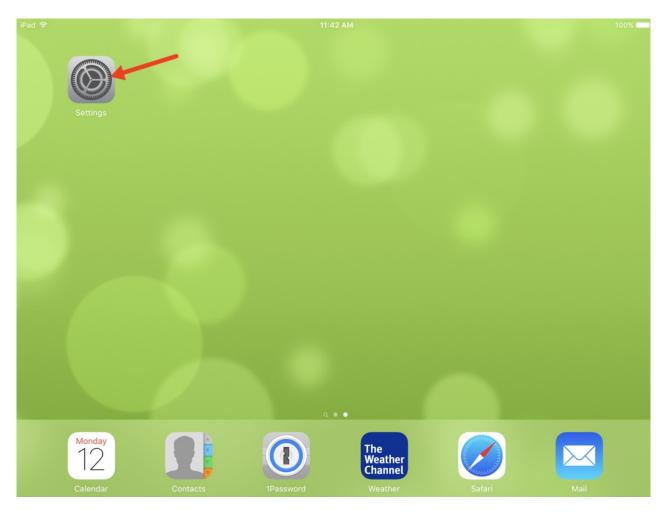

For Safari versions 11.0 or later

To fix this issue permanently within Safari on your computer, open the Safari menu, click on Preferences..., select the Privacy tab, and uncheck the Website Tracking: Prevent cross-site tracking box.

The permanent solution for iOS...

If you're using Safari on an iOS device, open the Settings app.

For iOS versions 10.0 or earlier

Scroll down the list on the left side of the screen and select Safari. Then, scroll down the options that appear on the right side of the screen and tap on Block Cookies.
