

Opting In/Out

Last Modified on 03/25/2025 1:40 pm EDT

Did you know? Your school's program is designed to ensure you have access to your course materials on or before the first day of class—at the lowest price. On average, 98% of students whose course materials are offered in these programs choose to stay opted in. If you opt out, you'll lose access to essential materials like the eBook and digital assignments, and purchasing them separately may cost more and take additional time.
