

Canvas 1.3 LMS Integration with Norton Learning Tools

Last Modified on 09/23/2024 5:23 pm EDT

Canvas 1.3 LMS Integration with Norton Learning Tools

Before you use Norton Learning Tools to add links to your Canvas course, you should confirm:

1. Your campus Canvas administrator has installed the tool.
2. You have a Norton user account already.

If you think either of these isn't already done, then reach out to your [Norton rep](#) for help.

This document will cover the following:

- Launching Norton Learning Tools
- Creating your Norton course
- Adding deep links to Norton content and assignments
 - Overview
 - Selecting activity links
 - Selecting resource links
 - Sending links to Canvas
 - Organizing content in your Canvas course
 - Sending additional content from Norton Learning Tools

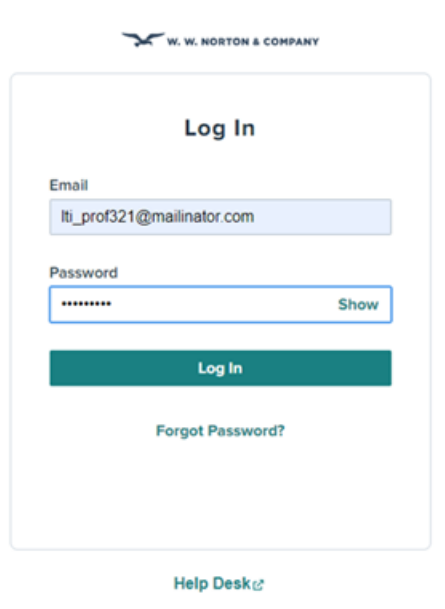

This [tour](#) will give you a brief overview of the process, and the complete steps are listed out below.

Launch Norton Learning Tools

1. Go to the "Assignments" or "Modules" section of your course, and click the 3 dots in the top right, and select **W. W. Norton Learning Tools**. (Which location you use doesn't matter; content will always populate in the correct place.)

2. Log in using the email and password tied to your Norton account. If you don't have a Norton account yet, reach out to your Norton rep for help.

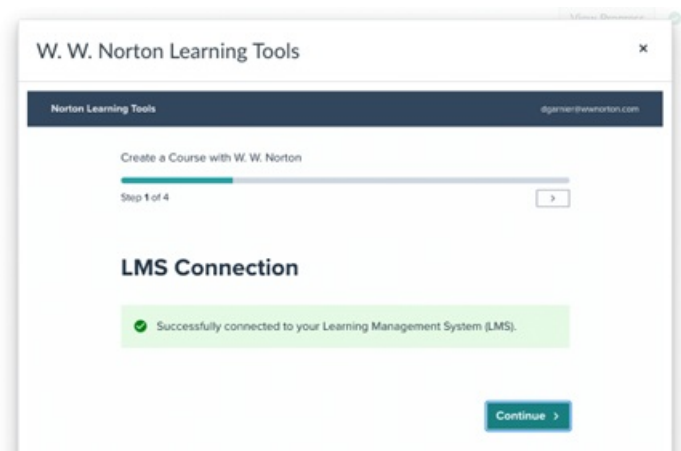

The image shows a login form for W. W. Norton & Company. At the top, the company logo and name are displayed. Below this is a white box with a light blue border containing the following elements: the heading "Log In", an "Email" label above a text input field containing "lti_prof321@mailinator.com", a "Password" label above a text input field with masked characters and a "Show" button to its right, a dark green "Log In" button, and a "Forgot Password?" link. Below the white box is a "Help Desk" link with an external icon.

Create your Norton course

3. Follow the steps in the wizard to create a Norton course, which is matched to your Canvas course. You'll need to set this up just once per Canvas course

4. Create a Course: Step 1. This step confirms that you're connected with your Canvas course.

The image shows a screenshot of the "W. W. Norton Learning Tools" interface. The window title is "W. W. Norton Learning Tools". The page header includes "Norton Learning Tools" and the email "djamier@wornorton.com". The main content area is titled "Create a Course with W. W. Norton" and shows a progress bar for "Step 1 of 4". Below this is the heading "LMS Connection" and a green success message: "Successfully connected to your Learning Management System (LMS)". A "Continue" button with a right-pointing arrow is located at the bottom right.

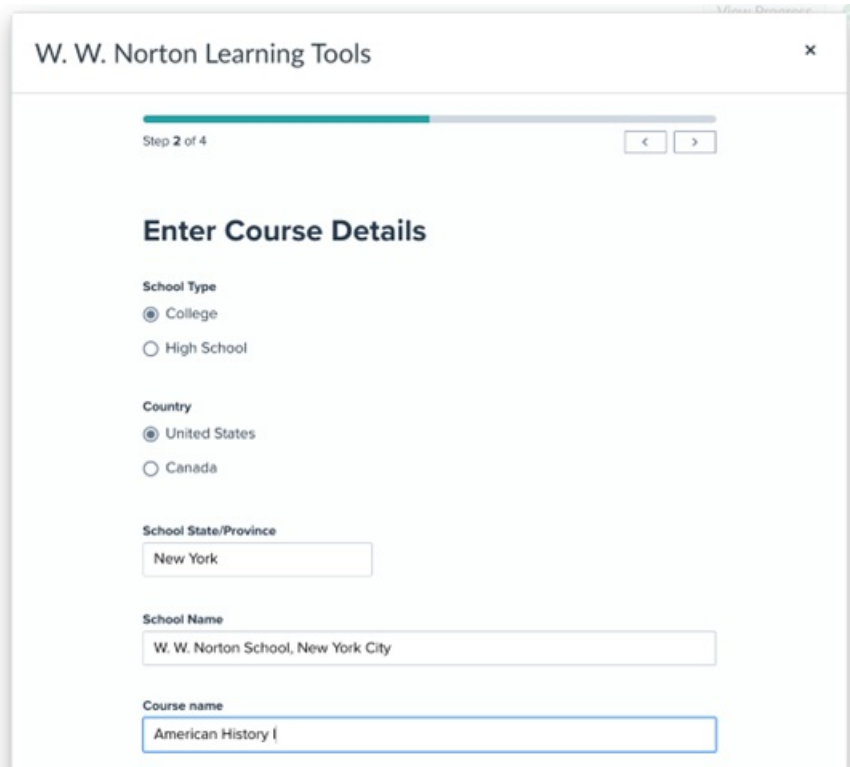

5. Create a Course: **Step 2**. Enter some required course details.

a. The **School Type**, **Country**, **School State/Province**, and **School Name** fields all work to tie your course to the right school record.

b. The **Course Name** can be up to 80 characters long.

c. The **Start Date** is the first day of student access to the course.

d. The **End Date** is when you expect all course grades to be final.

The screenshot shows a web browser window titled "W. W. Norton Learning Tools". The page is at "Step 2 of 4" and features a progress bar. The main heading is "Enter Course Details". The form includes several sections: "School Type" with radio buttons for "College" (selected) and "High School"; "Country" with radio buttons for "United States" (selected) and "Canada"; "School State/Province" with a text input field containing "New York"; "School Name" with a text input field containing "W. W. Norton School, New York City"; and "Course name" with a text input field containing "American History I". Navigation arrows are visible at the top right of the form area.

6. Create a Course: **Step 3**. Select your course material.

a. You can search for course material in two ways:

i. Search by Book Title. Use this search to browse from available titles to find the textbook you're assigning. This will be the most commonly used option.

1. Use the type-ahead *discipline* and *book title* fields to find your Norton text

2. Use the cover and edition details to choose the correct version

b. Confirm that you've selected the right book for your course.

7. Create a Course: **Step 4.** Confirm all your course information and create the course. (Or, to correct anything, use the “Previous” button to go back and edit it.)

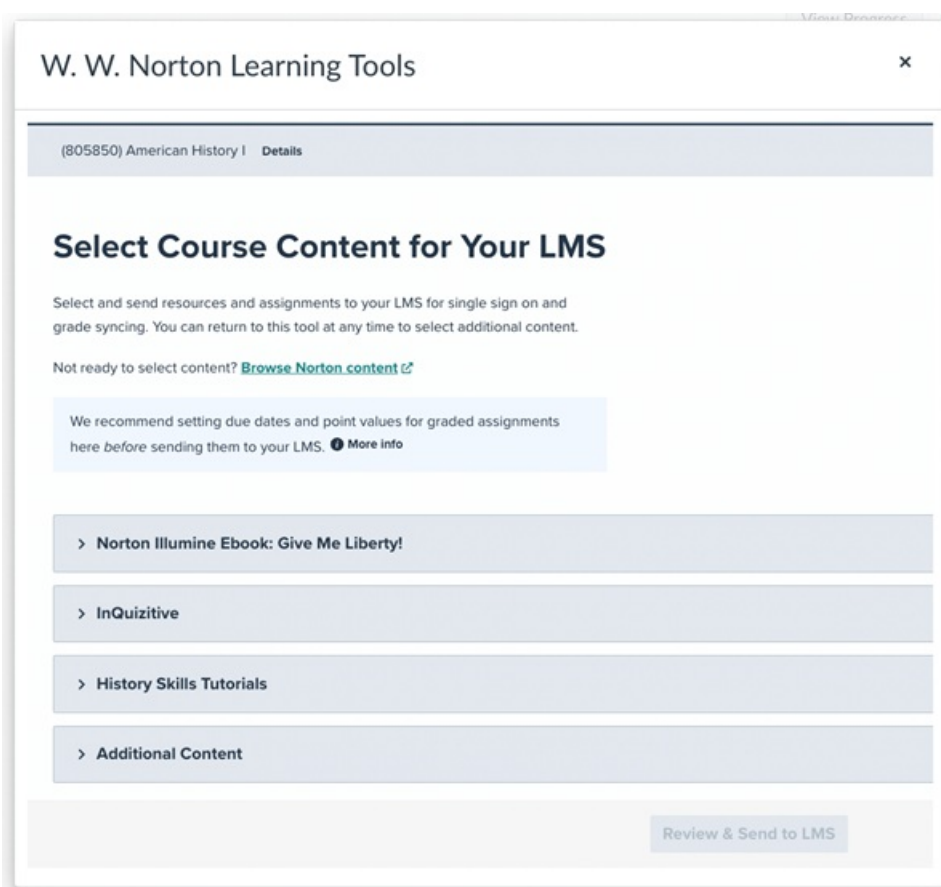

Add deep links to Norton content and assignments

Overview:

1. You'll see the **Select Course Content** tool when

- You've finished creating your Norton course.
- Or you have created course and then relaunched Norton Learning Tools

2. Each linkable resource for your book is listed here.

- They're grouped into sections according to type.
- As you browse these, you can expand or hide activity sections by clicking the gray section headings.
- **Assignable activities** like Norton Illumine, InQuizitive, Smartwork, Tutorials, etc. will be sent to Canvas as assignments in the Canvas **Assignments** area.
- **Resource links** links such as Videos, Documents, or unassignable Ebooks, will be sent to Canvas as links in the **Modules** section

3. You don't have to select all your links at once

- You can launch this tool from your Canvas course to add additional links throughout the semester

Selecting activity links

4. Check off any assignment link you would like to send to the LMS. These activities will always create a gradebook column in your Canvas course.

a. You may also set a **Due Date** for the assignment.

i. This is saved **both** into the Canvas course **and** into Norton's activity settings, so the student will see consistent information about when an assignment is due.

ii. **But**, please be aware that if you change the due date after you've linked the activity to Canvas, you will need to update both in Canvas and in Norton.

iii. The dates don't keep in sync automatically after the activity is sent to Canvas.

b. You may edit the **LMS Point Value** for the assignment.

i. This is what the assignment will be worth in your Canvas gradebook.

c. The due date is optional, but every gradable assignment needs an LMS Point Value.

Assignment Name	Due Date	LMS Point Value	Status
<input checked="" type="checkbox"/> Chapter 1: Old Worlds and New	Mar 27, 2024 at 11:59 PM	10	Not Sent
<input checked="" type="checkbox"/> Chapter 2: European Colonies and Native Nations, 1600-1660	Apr 03, 2024 at 11:59 PM	10	Not Sent
<input type="checkbox"/> Chapter 3: Creating Anglo-America		10	Not Sent
<input type="checkbox"/> Chapter 4: Slavery, Freedom, and the Struggle, to 1763		10	Not Sent
<input type="checkbox"/> Chapter 5: The American Revolution, to 1763		10	Not Sent

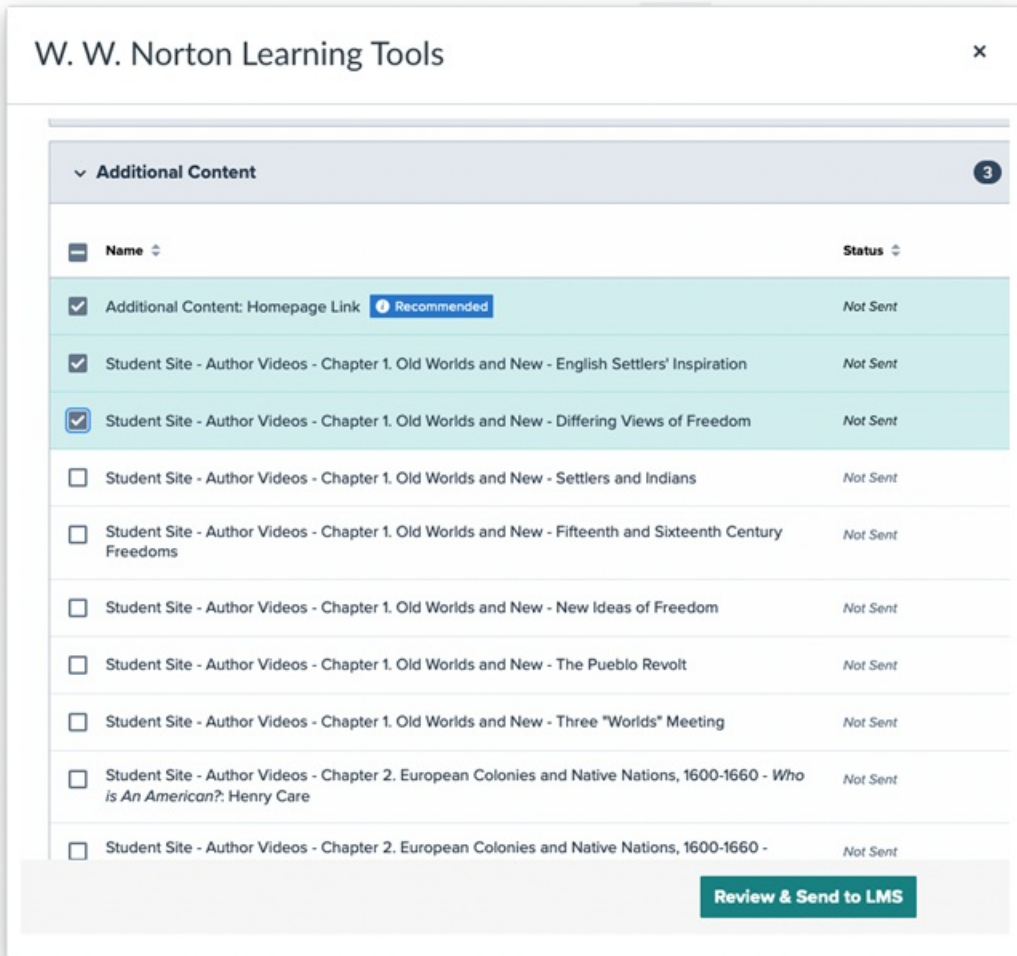

Selecting resource links

5. Check off any resources that you would like to send to your Canvas course

a. Ungraded resource links do not have due dates or LMS point values

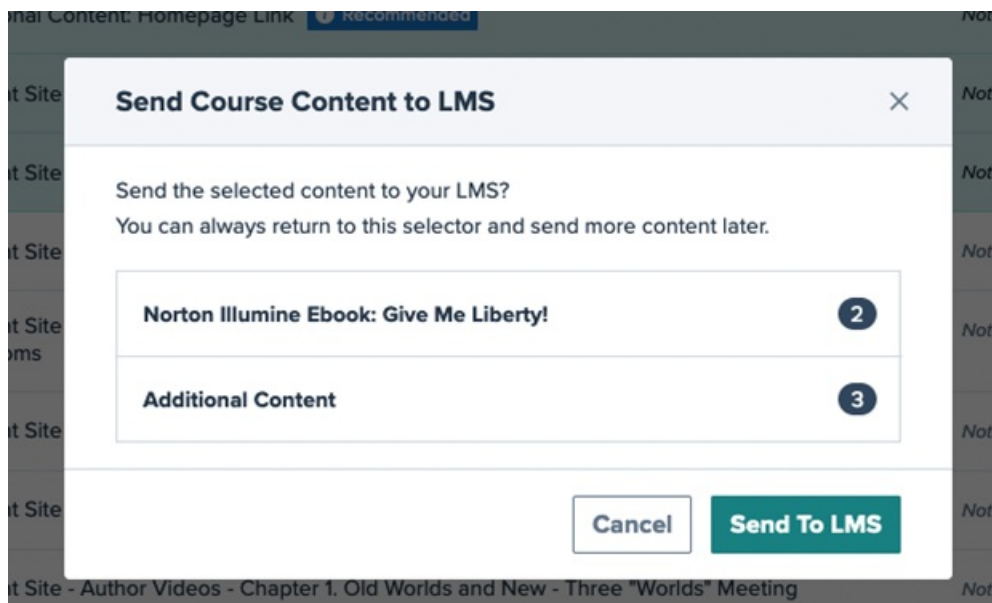

b. They will be sent to your LMS as links in Modules

c. You can select a Homepage Link to the content landing page, and/or links to each individual piece of content.

Sending links to Canvas

6. Click the **Review & Send to LMS** button at the bottom of the screen.
7. You'll see a summary of the links you selected. Confirm, and Send to LMS.

8. When complete, the modal will close, and you will see the content in your Canvas course

Organizing content in your Canvas course

9. In your Canvas course you'll see the Norton content you sent

- Resources links and other ungraded items are in the **Modules** area, in a module titled *New Content from App*
- Graded activities are in the **Assignments** area, and also linked to from Modules

▼ New Content From App

- ⋮ Norton Illumine Ebook: Give Me Liberty!: Chapter 1: Old Worlds and New
Mar 27 | 10 pts
- ⋮ Norton Illumine Ebook: Give Me Liberty!: Chapter 2: European Colonies and Native Nations, 1600-1660
Apr 3 | 10 pts
- ⋮ Additional Content: Homepage Link
- ⋮ Student Site - Author Videos - Chapter 1. Old Worlds and New - English Settlers' Inspiration
- ⋮ Student Site - Author Videos - Chapter 1. Old Worlds and New - Differing Views of Freedom

10. You can reorganize or regroup your content in Canvas so that your course is laid out the way you want. Be sure to publish items when you want to make them available to students.

Sending additional content from Norton Learning Tools

11. You can return to Norton Learning Tools as many times as you want, and send more links into Canvas.

12. When you return, you'll see an indication of links that were already sent into the course. Your previously set Due Dates and LMS Point Values will be displayed.

[Review & Send to LMS](#)

13. You **can** resend links. But you should only resend a graded item if you have deleted it from your Canvas course. Having duplicate links for graded items in your course will cause gradebook issues for your students.
