Canvas 1.3 LMS Integration with Norton Learning Tools

Last Modified on 12/09/2024 4:02 pm EST

Canvas 1.3 LMS Integration with Norton Learning Tools

Before you use Norton Learning Tools to add links to your Canvas course, you should confirm:

1. Your campus Canvas administrator has installed the tool.

2. You have a Norton user account already.

If you think either of these isn't already done, then reach out to your Norton rep for help.

This document will cover the following:
- Launching Norton Learning Tools
- Creating your Norton course
- Choosing integration type for gradable assignments
  - Adding deep links to individual assignments
  - Adding deep links to product homepages
- Organizing content in your Canvas course
- Sending additional content from Norton Learning Tools

This tour will give you a brief overview of the process, and the complete steps are listed out below.

Launch Norton Learning Tools

1. Go to the "Assignments" or "Modules" section of your course, and click the 3 dots in the top right, and select **W. W. Norton Learning Tools.** (Which location you use doesn't matter; content will always populate in the correct place.)
   2.Log in using the email and password tied to your Norton account. If you don't have a Norton account yet, reach out to your Norton rep for help.
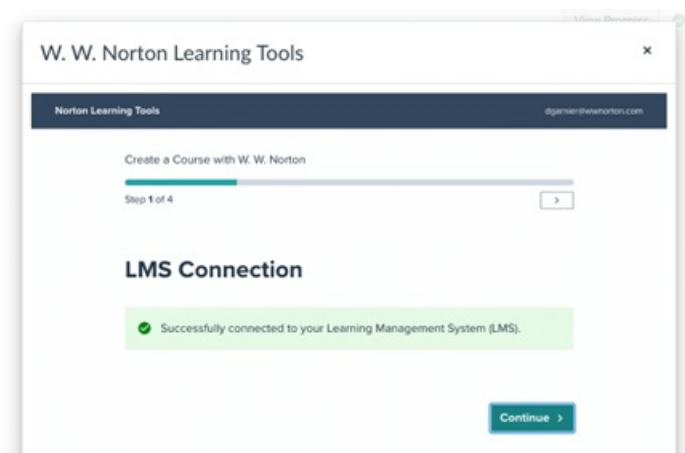

Create your Norton course

3. Follow the steps in the wizard to create a Norton course, which is matched to your Canvas course. You'll need to set this up just once per Canvas course

4. Create a Course: Step 1. This step confirms that you're connected with your Canvas course.

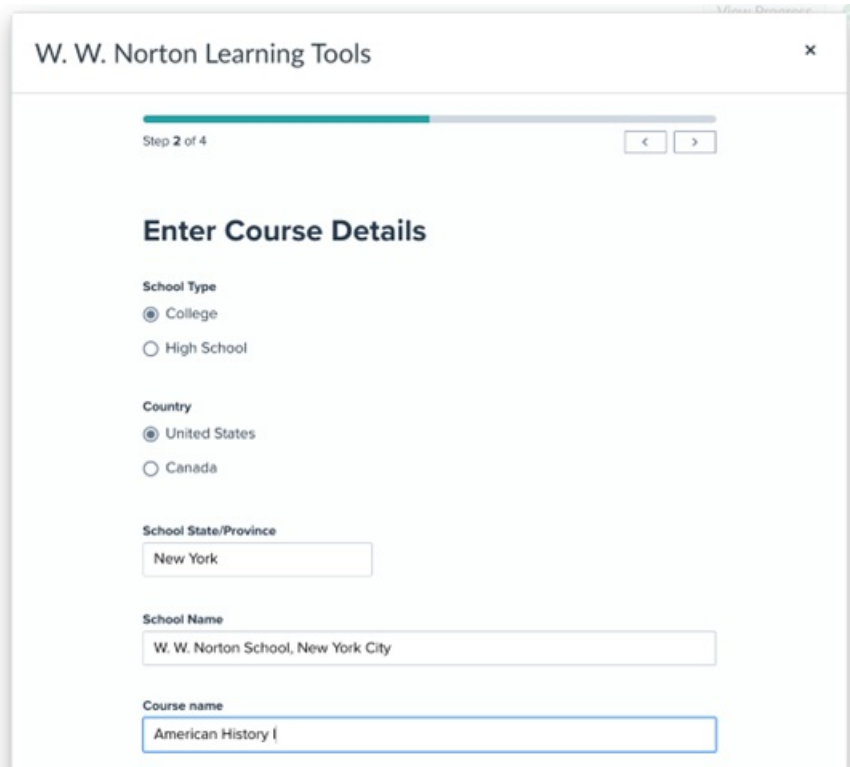

5. Create a Course: Step 2. Enter some required course details.

    a. The **School Type, Country, School State/Province,** and **School Name** fields all work to tie your course to the right school record.

    b. The **Course Name** can be up to 80 characters long.

    c. The **Start Date** is the first day of student access to the course.

d. The **End Date** is when you expect all course grades to be final.

6. Create a Course: **Step 3.** Select your course material.

   a. You can search for course material in two ways:

      i. Search by Book Title. Use this search to browse from available titles to find the textbook you're assigning. This will be the most commonly used option.

         1. Use the type-ahead *discipline* and *book title fields to find your Norton text*

         2. Use the cover and edition details to choose the correct version

ii. **Enter Product Code.** Use this option if your Norton representative or specialist provided you with a custom title code. Type the title code into the text entry field.

b. Confirm that you've selected the right book for your course.

Confirm Book

Is this the book you are using for your course?

Title code: givemeliberty7brv1

Give Me Liberty!

An American History

Seventh Brief Edition, Volume One

Eric Foner, Kathleen DuVal, Lisa McGirr

No, this is not my book   Yes, this is my book
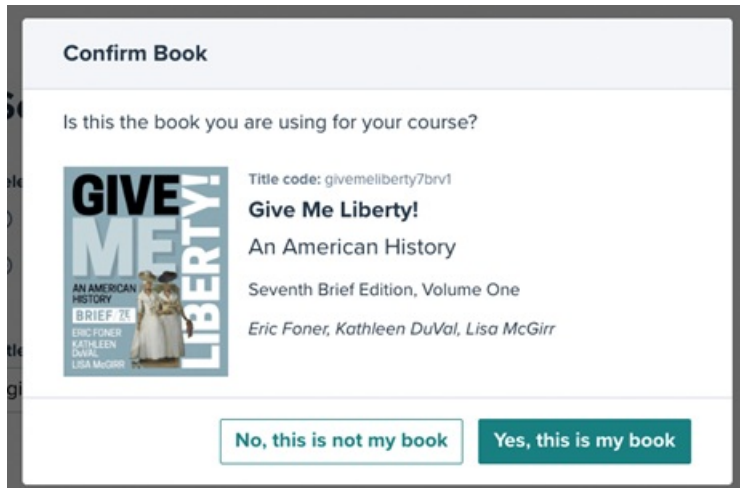

7. Create a Course: **Step 4.** Confirm all your course information and create the course. (Or, to correct anything, use the "Previous" button to go back and edit it.)

Choose your integration type

For graded assignments, you may choose to send individual assignment links (most popular), or product homepage links.

Choose individual assignment links if you want your students to access separate links for each assignment in Canvas. This will create separate grade columns in the Canvas grade book for each assignment per student.

Choose product homepage links if you want your student to have one link in Canvas for each Norton product. This will create one grade column for each Norton product in the Canvas gradebook per student. This grade is a cumulative average of all assignments for that product.

Select integration type for Canvas

Select the type of integration for all gradeable Norton Learning Tools (required).

○ **A.** I want individual assignment links for Canvas `Most Popular`

Gradebook		
Name	Assignment 1	Assignment 2
Average		
First Last		
First Last		
First Last		

Why choose individual assignment links?

- You want your students to access separate links for each assignment in Canvas.
- You want to have separate grades columns in the Canvas grade book for each assignment per student.

○ **B.** I want product homepage links for Canvas

Gradebook	
Name	Product Total
Average	
First Last	
First Last	
First Last	

Why choose Product Homepage links?

- You want your students to have one link in Canvas for each Norton product.
- You want to have one grade column for each Norton product in the Canvas gradebook per student. This grade is a cumulative average of all assignments for that product.

Option 1: Adding deep links to individual assignments:

After you select **"I want individual assignment links for Canvas"**, you'll see the **Select Norton Learning Tools** screen

- Each linkable resource for your book is listed here.
  - They're grouped into sections according to type.
  - As you browse these, you can expand or hide activity sections by clicking the gray section headings.
- You don't have to select all your links at once
  - You can launch this tool from your Canvas course to add additional links throughout the semester

Select Norton Learning Tools for Canvas

Select and send resources and assignments to Canvas for single sign-on and grade syncing. You can return to this tool at any time to select additional content.

Not ready to select content? **Browse Norton content** ⬀

> For graded individual assignment links, we recommend setting Due Date and LMS Point Value here *before* sending them to Canvas ❶ **More info**
>
> For ungraded individual assignment links, Due Date and LMS Point Value will be unavailable.

Set Due Date ✕

Due Date	Time
mm / dd / yyyy 🗓	11:59 PM ⌄

Clear

Cancel   **Set Due Date**

- This due date is saved **both** into the Canvas course **and** into Norton's activity settings, so the student will see consistent information about when an assignment is due.
- **But**, please be aware that if you change the due date after you've linked the activity to Canvas, you will need to update both in Canvas and in Norton. The dates don't keep in sync automatically after the activity is sent to Canvas.

3. If you turn LMS Grade Column **off**, the link will be send as a link to Modules, and no grade will report to the LMS.

4. Products that are ungradeable will only be sent over as links into Modules

Option 2: Adding deep links to product homepages:

After you select **"I want product homepage links for Canvas",** you'll see the **Select Norton Learning Tools** screen
- Each linkable resource for your book is listed here.
  - They're grouped into sections according to type.
  - As you browse these, you can expand or hide activity sections by clicking the gray section headings.
- You don't have to select all your links at once
  - You can launch this tool from your Canvas course to add additional links throughout the semester

Select Norton Learning Tools for Canvas

Select and send resources and assignments to Canvas for single sign-on and grade syncing. You can return to this tool at any time to select additional content.

> History Skills Tutorials [Gradeable]

1. .Check off any link you would like to send to your LMS

2. If you turn LMS Grade Column **on**, the link will be send as an Assignment and will create a grade column with the specified LMS point value.
   - Edit the LMS point value by typing a new value in the box

InQuizitive [Gradeable]			1 selected
Select All			
☑ **Assignment Name**	**LMS Grade Column**	**LMS Point Value**	**Integration Status**
☑ Homepage Link.	ON ⬤	10	*Not Sent*

3. If you turn LMS Grade Column **off**, the link will be send as a link to Modules, and no grade will report to the LMS.

| InQuizitive [Gradeable]			1 selected
Select All			
☑ **Assignment Name**	**LMS Grade Column**	**LMS Point Value**	**Integration Status**
☑ Homepage Link.	⬤ OFF	Unavailable	*Not Sent*

4. Products that are ungradeable will only be sent over as links into Modules
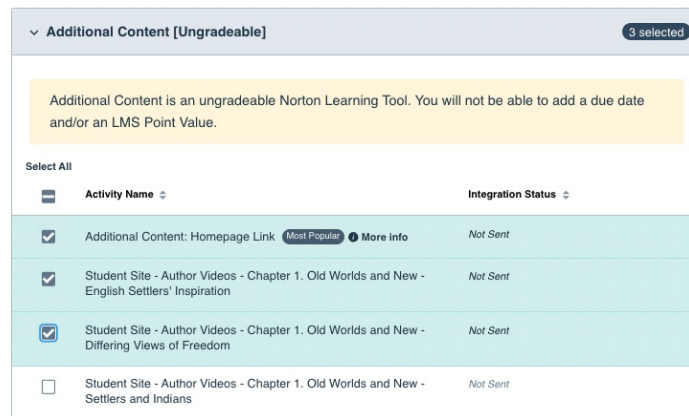

Sending links to Canvas

5. Click the **Review** button at the bottom of the screen.

6. You'll see a summary of the links you selected. Confirm, and Send to Canvas.
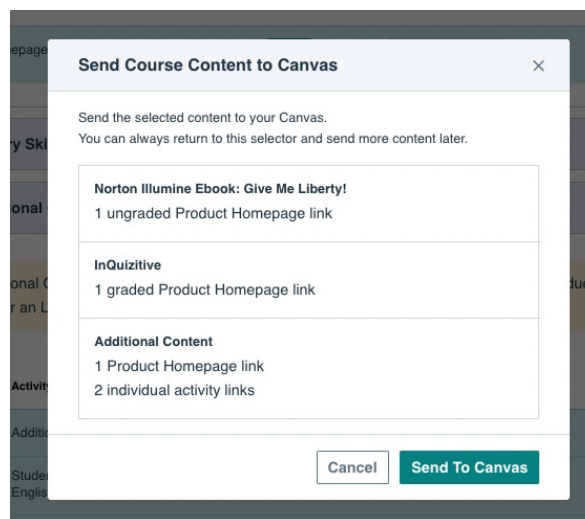

7. When complete, the modal will close, and you will see the content in your Canvas course

Organizing content in your Canvas course

8. . In your Canvas course you'll see the Norton content you sent
   - Resources links and other ungraded items are in the **Modules** area, in a module titled *New Content from App*
   - Graded activities are in the **Assignments** area, and also linked to from Modules

9. You can reorganize or regroup your content in Canvas so that your course is laid out the way you want. Be sure to publish items when you want to make them available to students.

10. If you have sent Product Homepage links, you can set due dates on individual assignments within the product. Launch the product homepage link from Canvas and set due dates or edit assignments within the product.

Sending additional content from Norton Learning Tools

11. You can return to Norton Learning Tools as many times as you want, and send more links into Canvas.

12. When you return, you'll see an indication of links that were already sent into the course. Your previously set Due Dates and LMS Point Values will be displayed.

13. You **can** resend links. But you should only resend a graded item if you have deleted it from your Canvas course. Having duplicate links for graded items in your course will cause gradebook issues for your students.
