

Setting up your Norton course in Canvas through VitalSource

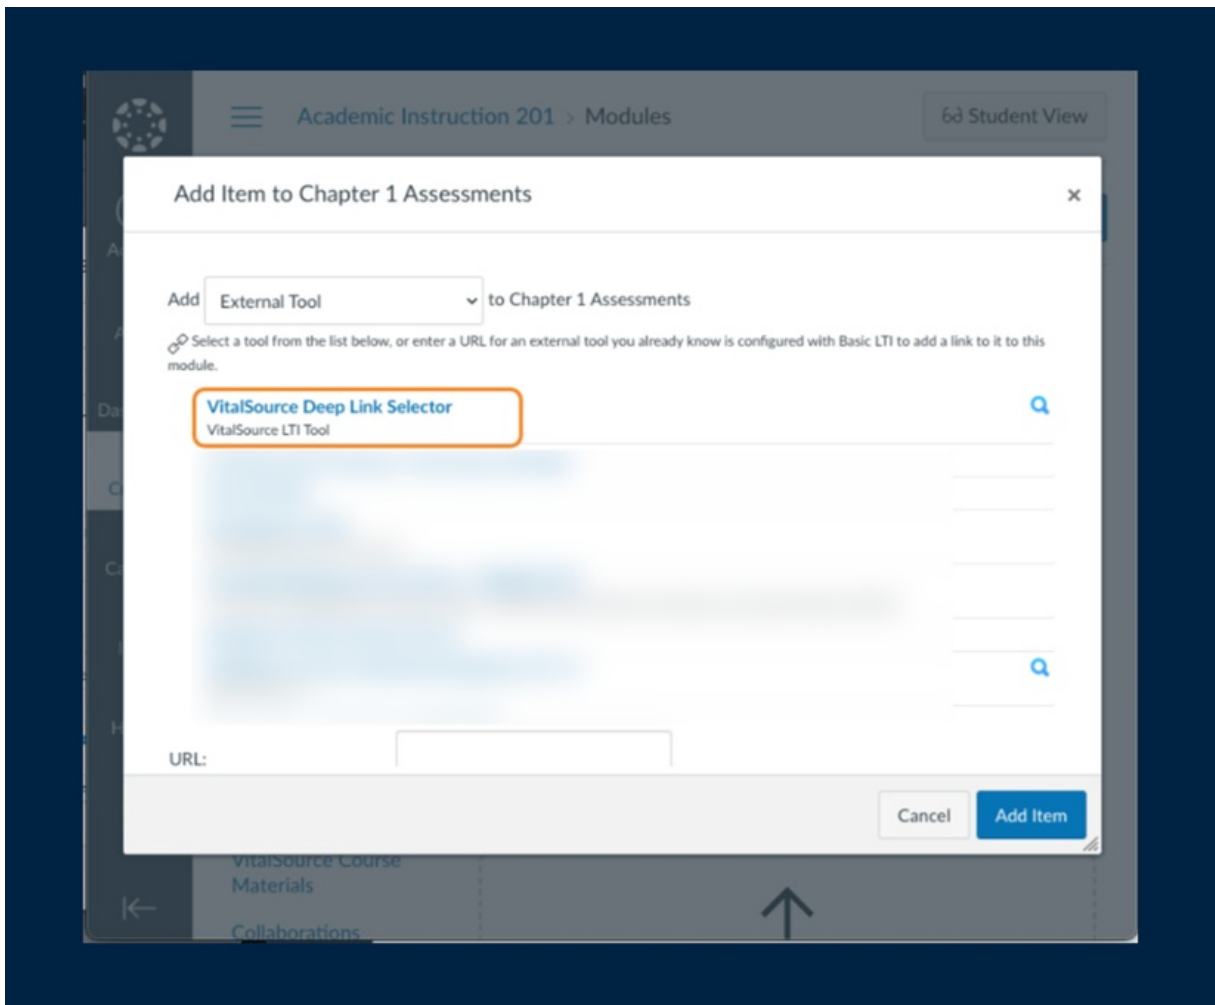

Last Modified on 03/10/2025 4:50 pm EDT

Step 1: Setting up your Norton course

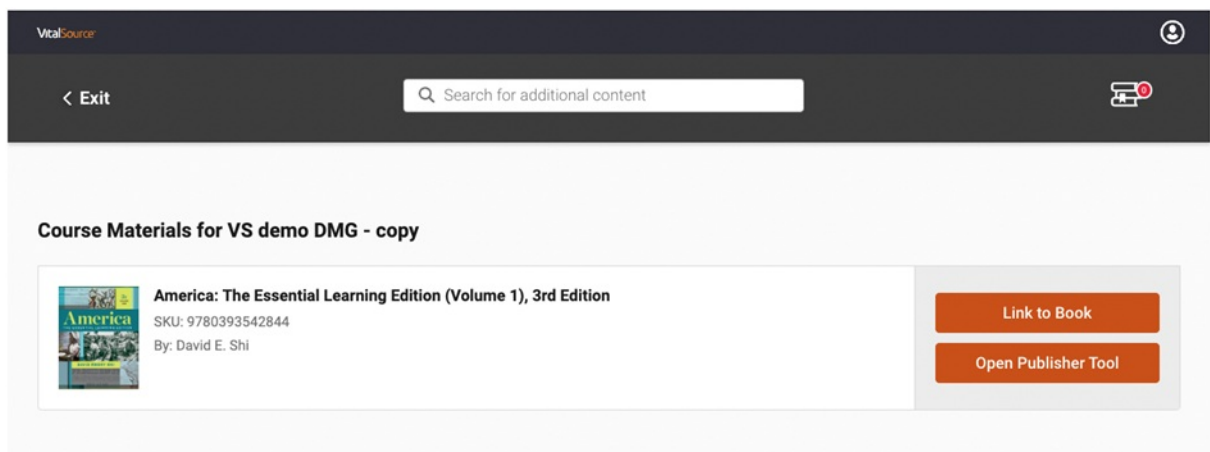

1. From Canvas Modules, locate or create a module where you would like to add links. Click on the + symbol to the right of the module name.

2. Select External Tool from the drop down menu, and then select the tool called "VitalSource Deep Link Selector." The name may vary, but it should have a magnifying glass icon on the right.

3. A new window will open, and you will see the Norton text and courseware that have been paired with your course. Click Open Publisher Tool. If your course pairing is not complete, reach out to your bookstore.

4. Log in using the email and password tied to your account. If you don't have a Norton account yet, reach out to your Norton rep for help.

Step 2: Adding deep links to course material

Choose your integration type

For graded assignments, you may choose to send individual assignment links (most popular), or product homepage links.

- Choose individual assignment links if you want your students to access separate links for each assignment in Canvas. This will create separate grade columns in the Canvas grade book for each assignment per student.
- Choose product homepage links if you want your student to have one link in Canvas for each Norton product. This will create one grade column for each Norton product in the Canvas gradebook per student. This grade is a cumulative average of all assignments for that product.

Select integration type for Canvas

Select the type of integration for all gradeable Norton Learning Tools (required).

- A. I want individual assignment links for Canvas Most Popular

Why choose individual assignment links?

- You want your students to access separate links for each assignment in Canvas.
- You want to have separate grades columns in the Canvas grade book for each assignment per student.

- B. I want product homepage links for Canvas

Gradebook

Why choose Product Homepage links?

- You want your students to have one link in Canvas for each Norton product.
- You want to have one grade column for each Norton product in the Canvas gradebook per student. This grade is a cumulative average of all assignments for that product.

Add links

1. Choose course material to add to your Canvas course

Select Norton Learning Tools for Canvas

Select and send resources and assignments to Canvas for single sign-on and grade syncing. You can return to this tool at any time to select additional content.

Not ready to select content? [Browse Norton content](#)

For graded individual assignment links, we recommend setting Due Date and LMS Point Value here *before* sending them to Canvas. [More info](#)

For ungraded individual assignment links, Due Date and LMS Point Value will be unavailable.

4. If you turn LMS Grade Column off, the link will be sent as a link to Modules, and no grade will report to the LMS.

Assignment Name	LMS Grade Column	LMS Point Value	Integration Status
Homepage Link.	OFF	Unavailable	Not Sent

5. Products that are ungradable will only be sent over as links into Modules

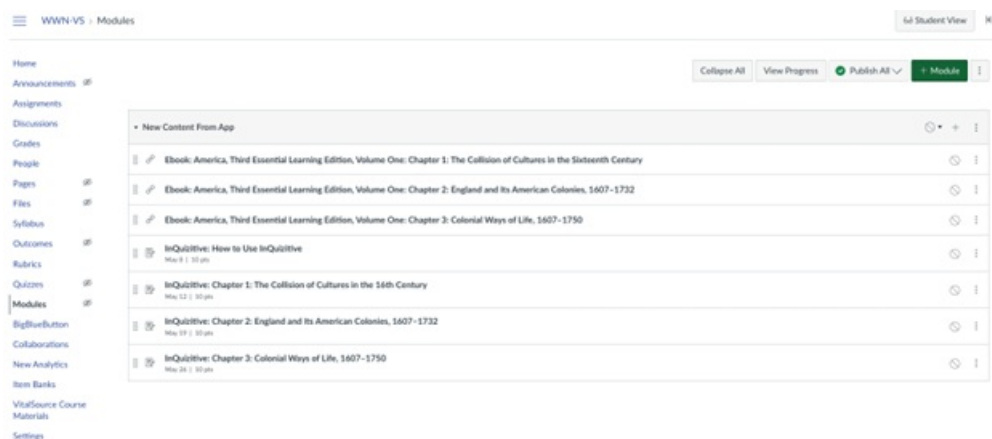

6. Click the **Review** button at the bottom of the screen. You'll see a summary of the links you selected. Confirm, and Send to Canvas.

7. When complete, the modal will close, and you will see the content in your Canvas course.

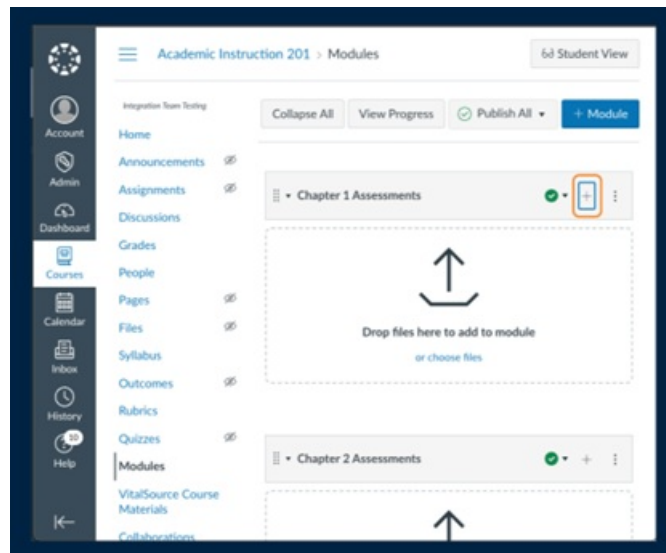

- You can reorganize or regroup your content in Canvas so that your course is laid out the way you want.
- Be sure to publish items when you want to make them available to students.
- If you have sent Product Homepage links, you can set due dates on individual assignments within the product. Launch the product homepage link from Canvas and set due dates or edit assignments within the product.

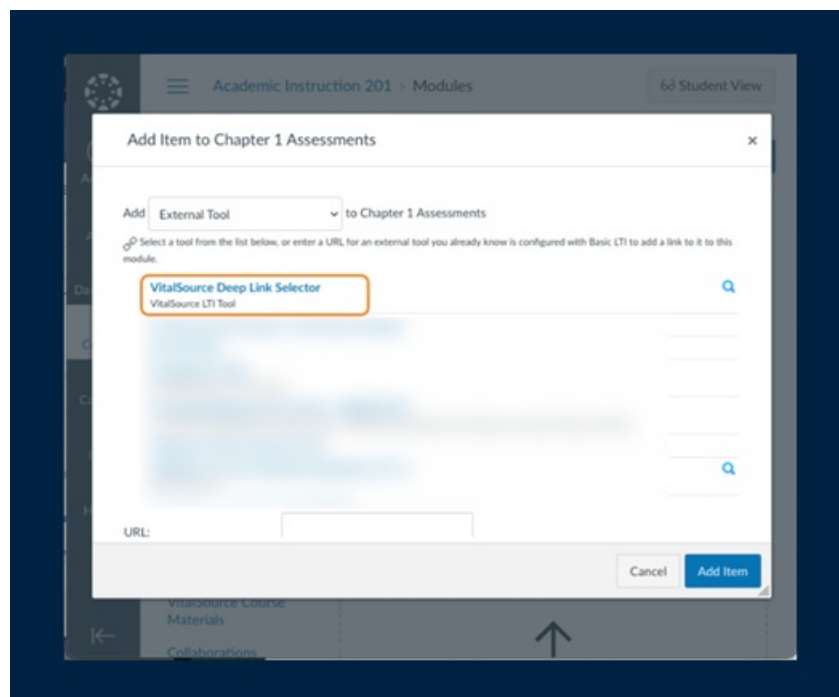

Step 3: Relaunching deep linking tool

You don't have to select all your links at once. You can launch this tool from your Canvas course to add additional links throughout the semester.

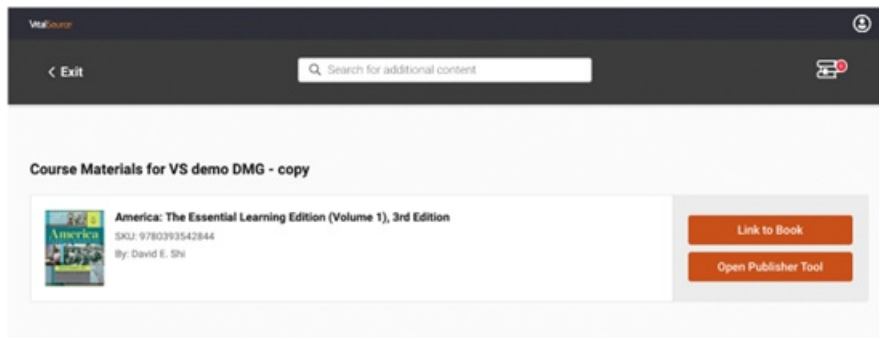

1. From Canvas Modules, locate or create a module where you would like to add links. Click on the + symbol to the right of the module name.

2. Select External Tool from the drop down menu, and then select the tool called "VitalSource Deep Link Selector." The name may vary, but it should have a magnifying glass icon on the right.

3. Click Open Publisher Tool

4. Follow the steps listed above in Step 2: Adding course material deep links to Canvas

- a. Note that the tool will indicate which links you have already added to your course
