

# Canvas Course Copy Instructions

Last Modified on 11/20/2024 10:44 am EST

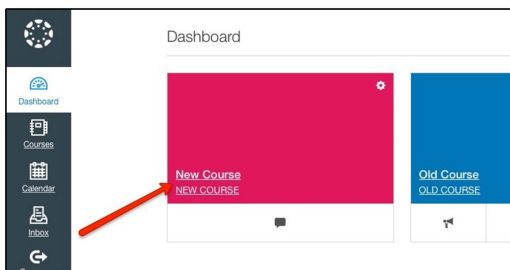

This document describes how to copy content from an existing course that has Norton digital learning tool links to a new course while retaining LMS integration with Canvas for the links. Please consult your academic department administrator or campus IT helpdesk for details regarding specific course copy procedures for your department/campus.

## Prerequisites:

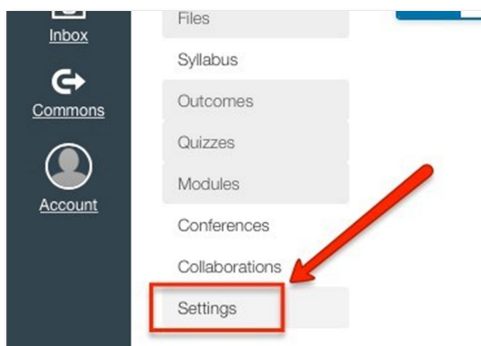

- A Canvas course shell for the new academic term,
- The name of the previous term's Canvas course from which you want to copy Norton digital learning tool links.

## Navigate to the copy course page

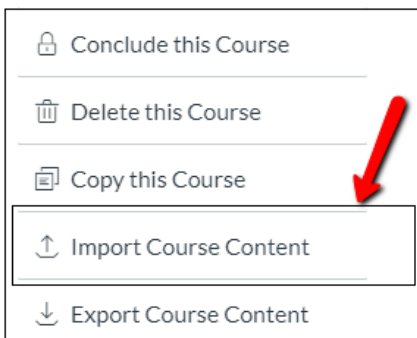

1. Open the upcoming term's course into which you want to add Norton digital learning tools.

2. In the course navigation menu on the left, click **Settings**

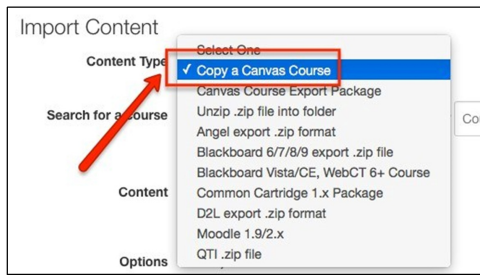

3. In the list of commands on the right, select **Import Course Content**

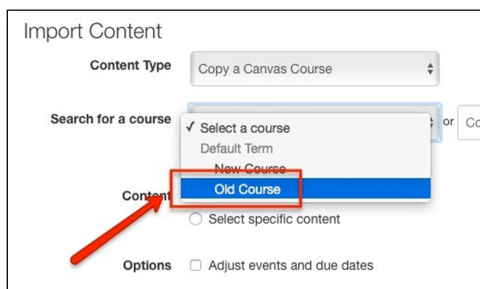

## Select options and copy the course content

1. From the "Content Type" list, select **Copy a Canvas Course**.

2. From the "Search for a course" list, select the existing course that already has Norton digital learning tool links in it, or use the text box at the right to search for the course using a keyword.

3. To copy all content from your existing course, use the **All Content** option to include all possible items (especially recommended if you've also loaded a Norton course pack for the book you're using)

4. To copy only the Norton digital learning tools links, click the **Select specific content** option and go to step 9.

5. Click the **Import** button.

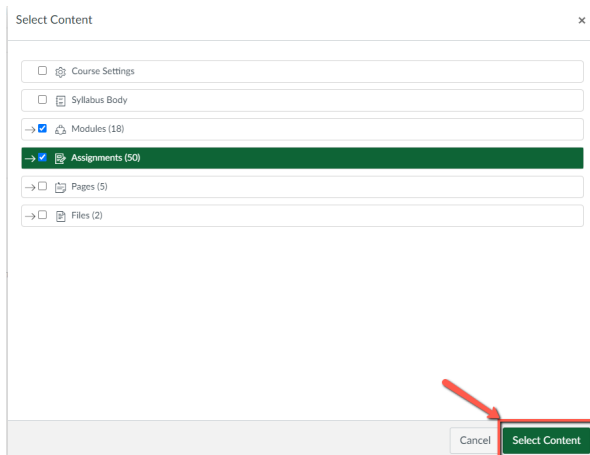

• If you chose the "All Content" option, you'll see the status of the import under "Current Jobs".

6. If you chose "Select specific content", under "Current Jobs" click the **Select Content** button.

7. In the "Select Content", click the boxes next to anything you wish to copy, as appropriate. Expand the list of content by clicking the arrow → next to Content items. Click the **Select Content** button at the bottom of the box to begin the import process. You'll see the status of the import under "Current Jobs" as in Step 8 above.

8. Once you see "Completed" as the status under "Current Jobs," continue to the next section.

## Confirm content was copied

1. Confirm the "W. W. Norton Learning Tools" (or similarly named) external tool: Go to course **Settings**, click the **Apps** tab, then click the **View App Configurations** button and confirm "W. W. Norton Learning Tools" is in the list of **External Apps**.

### External Apps

Apps are an easy way to add new features to Canvas. They can be used for assignments for assessment tools.

[See some LTI tools that work great with Canvas.](#)

Name
Admin Analytics
Lucid Integration
New Analytics
Quizzes 2
W. W. Norton Learning Tools LTI 1.3

2. Navigate to the "Assignments" and/or "Modules" area of your upcoming course and confirm the Norton digital learning tool link(s) exist.

▾ Assignments	
⋮ 	<b>How to Use InQuizitive Assignment</b> Course Materials Module   10 pts
⋮ 	<b>Chapter 1 InQuizitive</b> Chapter 1: The Science of Psychology Module   10 pts
⋮ 	<b>Chapter 2 InQuizitive</b> Chapter 2: Research Methodology Module   10 pts
⋮ 	<b>Chapter 3 InQuizitive</b> Chapter 3: Biology and Behavior Module   10 pts

## Next steps

If you haven't already created a Student Set for your W. W. Norton product, you must do that to complete your course set up: [Create a Student Set](#)

### Reporting error messages

Please take a screenshot and/or copy the text from the error message and contact [W. W. Norton Customer Support](#) for assistance. A support specialist will contact you to assist with further troubleshooting.
