Step 2: Adding deep links to course material

Choose your integration type

For graded assignments, you may choose to send individual assignment links (most popular), or product homepage links.

- Choose individual assignment links if you want your students to access separate links for each assignment in Canvas. This will create separate grade columns in the Canvas grade book for each assignment per student.
- Choose product homepage links if you want your student to have one link in Canvas for each Norton product. This will create one grade column for each Norton product in the Canvas gradebook per student. This grade is a cumulative average of all assignments for that product.

Select the type of integration for all gradeable Norton Learning Tools (required).

A. I want individual assignment links for desire2learn **Most Popular**

Gradebook		
Name	Assignment 1	Assignment 2
