

# Using Launch Courseware

Last Modified on 07/23/2025 11:09 am EDT

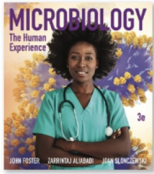

## Using Launch Courseware

Launch Courseware is an easy and consistent way for students to access course content. Students clicking Launch Courseware will be taken directly to their course resources from day one, with no set up required by you.

1. Student clicks Launch Courseware, which will appear in your course on or before the first day of class.

2. Student is automatically signed in with access to Norton course content (Ebook and digital learning tools).

It's that easy!

If you would like to add deep links to specific course content or add assignments to report to your LMS gradebook, you can launch the deep linking tool. Follow instructions found here for launching the deep linking tool and adding links to your LMS course: <https://knowledgebase.wwnorton.com/help/instructor-vitalsource>
