

Brightspace D2L 1.3 Integration with Norton Learning Tools

Last Modified on 05/22/2026 4:22 pm EDT

Brightspace D2L Integration with Norton Learning Tools

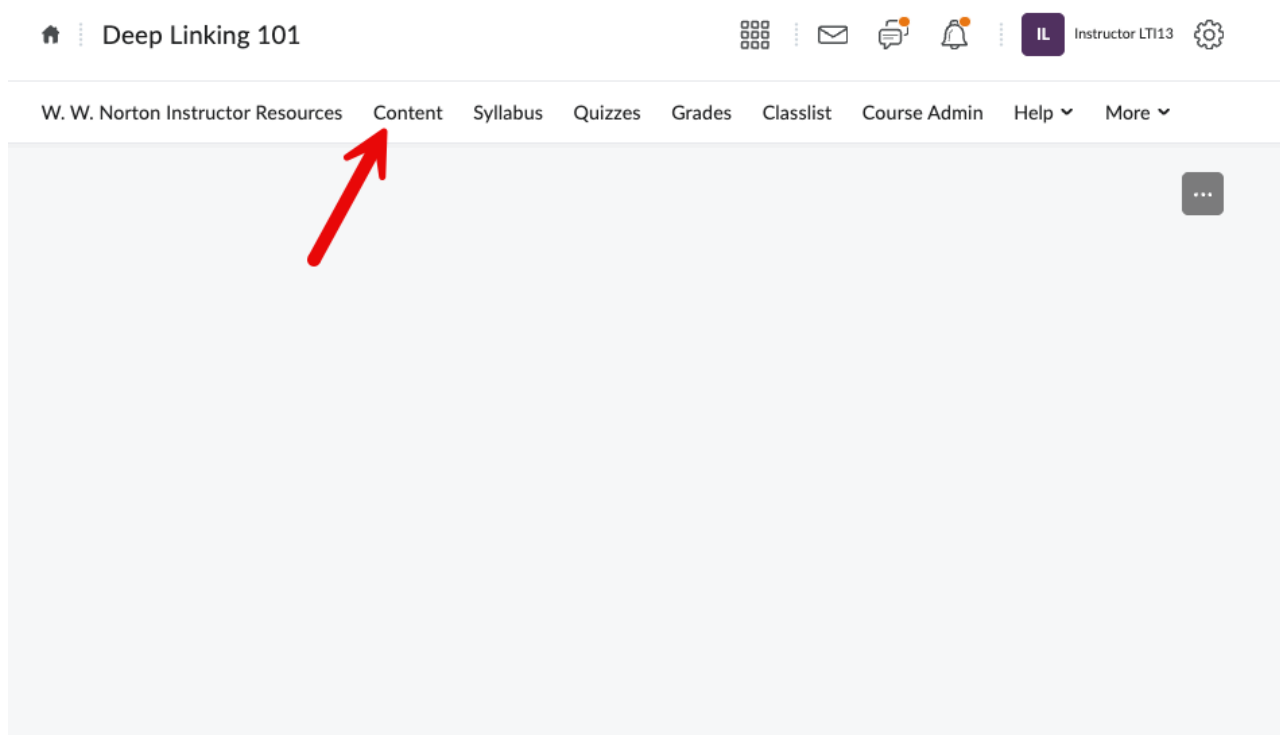

Before you use Norton Learning Tools to add links to your Brightspace D2L course, you should confirm:

1. Your campus administrator has installed the tool.
2. You have a Norton user account already.

If you think either of these isn't already done, then reach out to your [Norton rep](#) for help.

Launch Norton Learning Tools

1. From your course click **Content**

2. Add a **Module** to the course

3. Select **W. W. Norton Deep Linking** from the **Add Existing Activities** drop down menu.

Create a Course with W. W. Norton

Step 1 of 4

LMS Connection

✔ Successfully connected to your Learning Management System (LMS).

Continue >

6. **Create a Course: Step 2.** Select your course material.

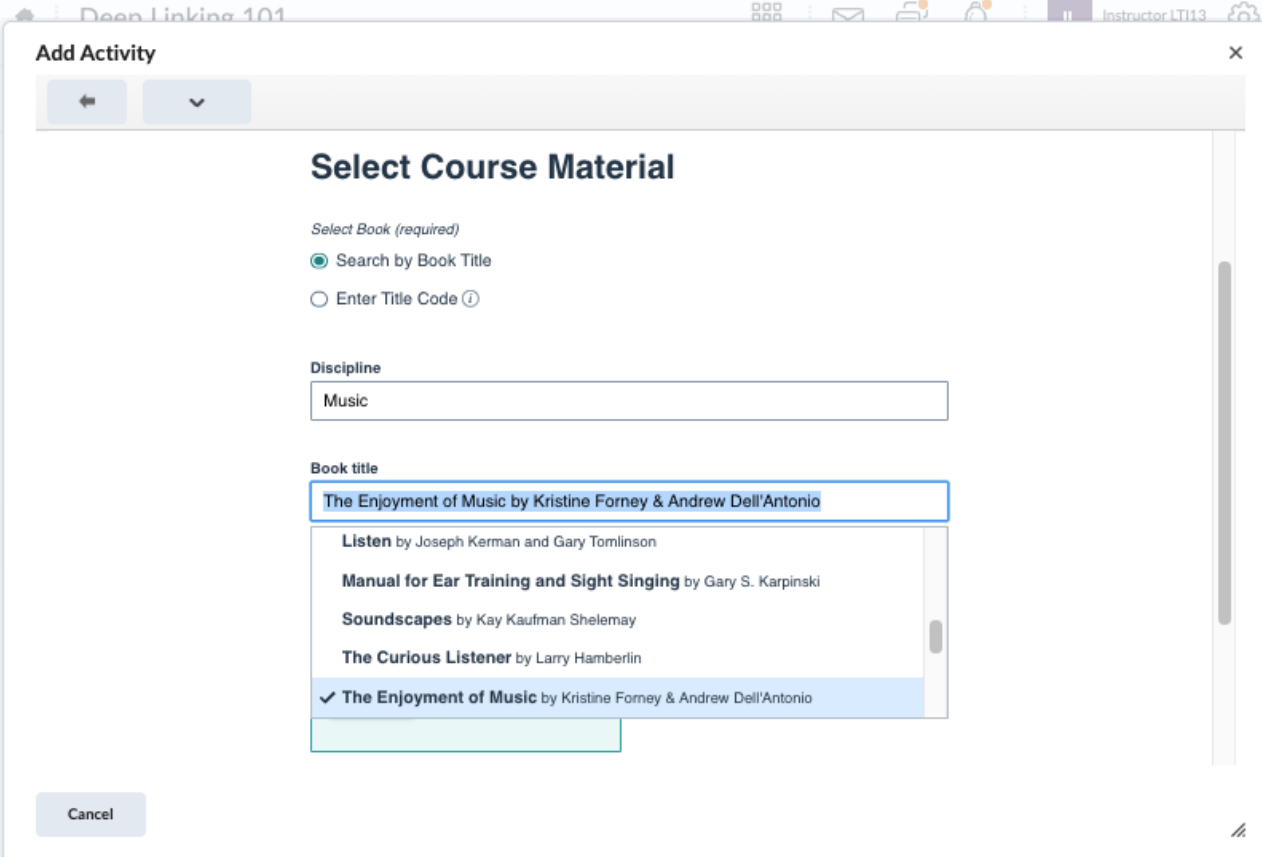

a. You can search for course material in two ways:

i. **Search by Book Title.** Use this search to browse from available titles to find the textbook you're assigning. This will be the most commonly used option.

1. Use the type-ahead *discipline* and *book title* fields to find your Norton text

2. Use the cover and edition details to choose the correct version

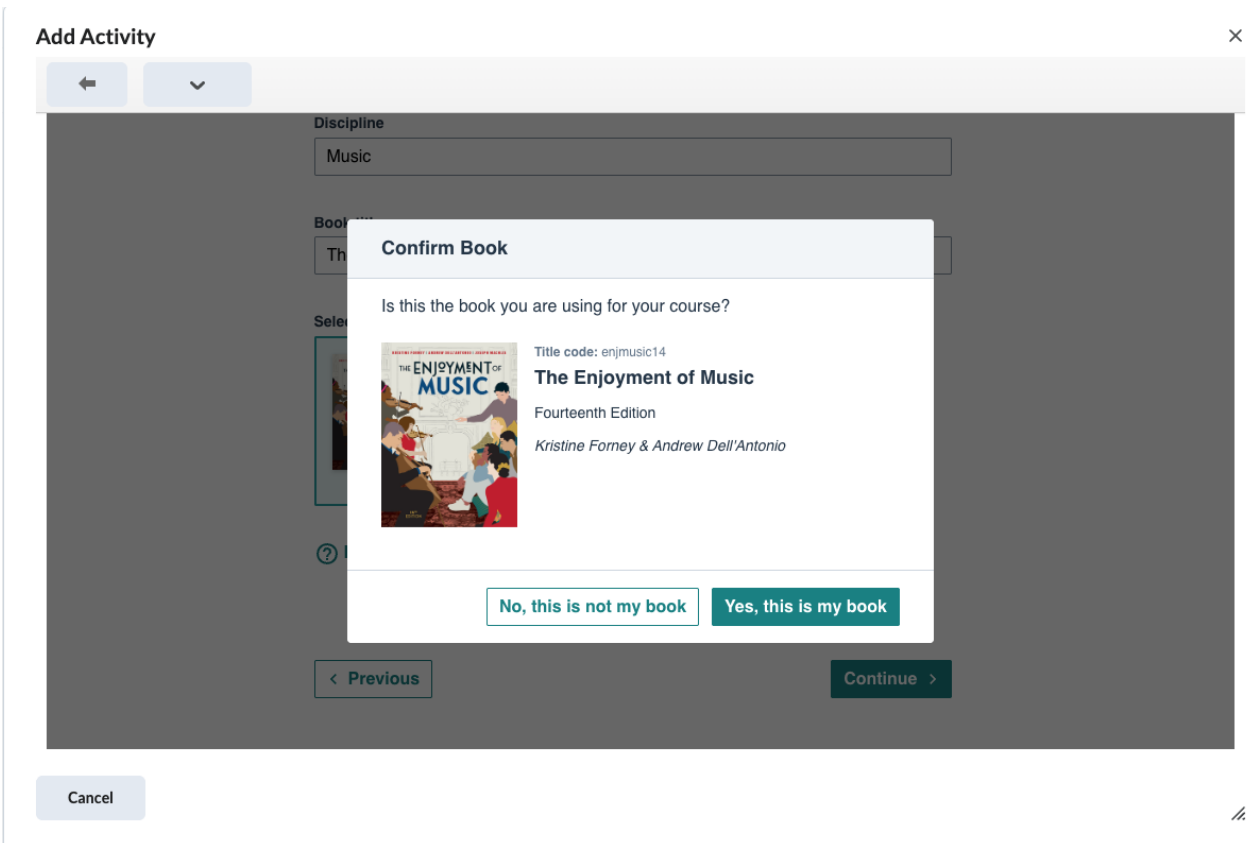

ii. **Enter Title Code.** Use this option if your Norton representative or specialist provided you with a custom title code. Type the title code into the text entry field.

The screenshot shows a web browser window with the address bar displaying "Deen Linking 101" and the page title "Instructor.LT113". The main content is a modal dialog titled "Add Activity" with a close button (X) in the top right corner. Inside the dialog, there are navigation arrows (back and forward) and a "Select Course Material" section. Under "Select Book (required)", the "Search by Book Title" radio button is selected, and the "Enter Title Code" option is unselected. The "Discipline" field is a text input containing "Music". The "Book title" field is a text input containing "The Enjoyment of Music by Kristine Forney & Andrew Dell'Antonio". Below this is a scrollable list of book titles: "Listen by Joseph Kerman and Gary Tomlinson", "Manual for Ear Training and Sight Singing by Gary S. Karpinski", "Soundscapes by Kay Kaufman Shelemay", "The Curious Listener by Larry Hamberlin", and "The Enjoyment of Music by Kristine Forney & Andrew Dell'Antonio". The last item is selected with a checkmark and a blue highlight. A "Cancel" button is located at the bottom left of the dialog.

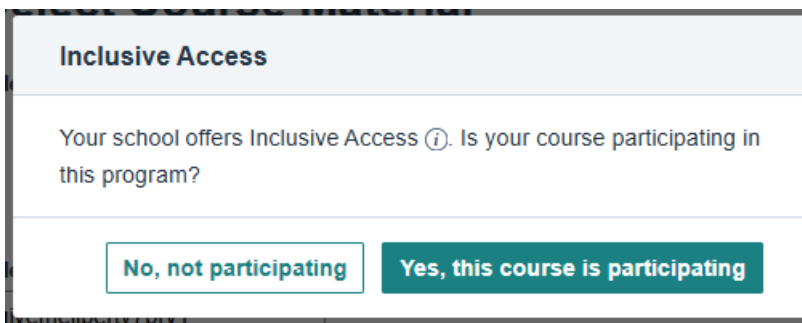

b. Confirm that you've selected the right book for your course. Select either "Yes, this is my book" or "No, this is not my book"

Note: if you select "No, this is not my book" the confirm book pop-up will close and you will be placed in the select course material screen

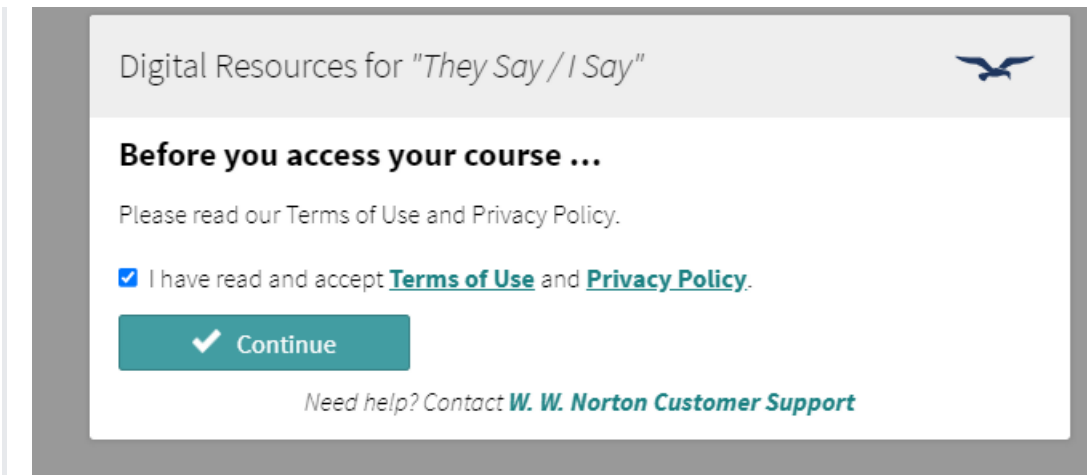

c. If applicable, confirm whether your course is participating in your school's Inclusive Access or Equitable Access program.

Note: This program can be called different names.

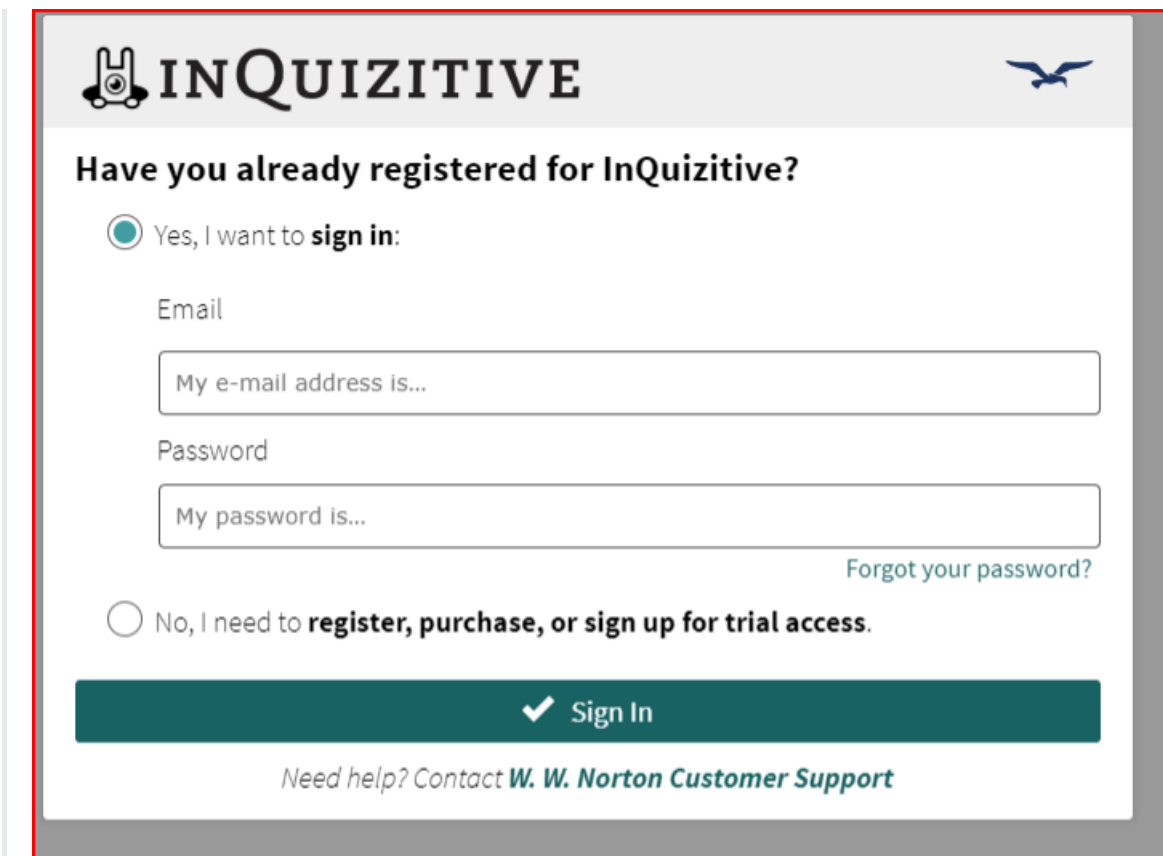

Note: If you select "Yes, this course is participating." When Students launch the course, they are auto signed in and are asked to accept the terms and privacy policy.

Screenshot when a student launches the course and opts in for Inclusive Access

Note: If you select **No, not participating** the course will be flagged as opted-out from Inclusive Access. When students launch an activity the first time from a course, they are prompted to sign in before they can access the course activities. They must register with an Access Code, Purchase Entitlements to the Course Materials or select Trial Access.

Screenshot when a student launches a link from the course and has opted out of Inclusive Access

7. Create a Course: Step 3. Enter some required course details.

a. The **School Type, Country, School State/Province, and School Name** fields all work to tie your course to the right school record.

b. The **Course Name** can be up to 80 characters long.

c. The **Start Date** is the first day of student access to the course.

d. The **End Date** is when you expect all course grades to be final.

Create Course

Choose your integration type

For graded assignments, you may choose to send individual assignment links (most popular), or product homepage links.

- Choose individual assignment links if you want your students to access separate links for each assignment in your Brightspace D2L course. This will create separate grade columns in the Brightspace D2L gradebook for each assignment per student.
- Choose product homepage links if you want your student to have one link in Brightspace D2L for each Norton product. This will create one grade column for each Norton product in the Brightspace D2L gradebook per student. This grade is a cumulative average of all assignments for that product.

Note: The Student Set ID is in the upper lefthand corner in parentheses. Click **Details** to see the course details. Then click **Close** to select integration type.

Select integration type for Brightspace D2L

Select the type of integration for all gradeable Norton Learning Tools (required).

A. I want individual assignment links for Brightspace D2L Most Popular

Gradebook

Name	Assignment 1	Assignment 2
First Last		
First Last		
First Last		

Why choose individual assignment links?

- You want your students to access separate links for each assignment in Brightspace D2L.
- You want to have separate grades columns in the Brightspace D2L grade book for each assignment per student.

B. I want product homepage links for Brightspace D2L

Gradebook

Name	Product Total
First Last	
First Last	
First Last	

Why choose Product Homepage links?

- You want your students to have one link in Brightspace D2L for each Norton product.
- You want to have one grade column for each Norton product in the Brightspace D2L gradebook per student. This grade is a cumulative average of all assignments for that product.

[Confirm](#)

[Cancel](#)

Option A: Adding deep links to individual assignments:

After you select "I want individual assignment links for Brightspace D2L", you'll see the **Select Norton Learning Tools** screen

- Each linkable resource for your book is listed here.
 - They're grouped into sections according to type.

- As you browse these, you can expand or hide activity sections by clicking the gray section headings.
- You don't have to select all your links at once
 - You can launch this tool from your course to add additional links throughout the semester.

1. Check off any link you would like to send to your LMS.

2. You may **set a due date** and **edit the LMS point value**.
